ProCam merchant guide: what you do, in order

Only the things the merchant does, in the order they do them: start the day, hand over a drone (online booking or walk-in), swap batteries, take it back, and check earnings. Screens are from the app on a phone.

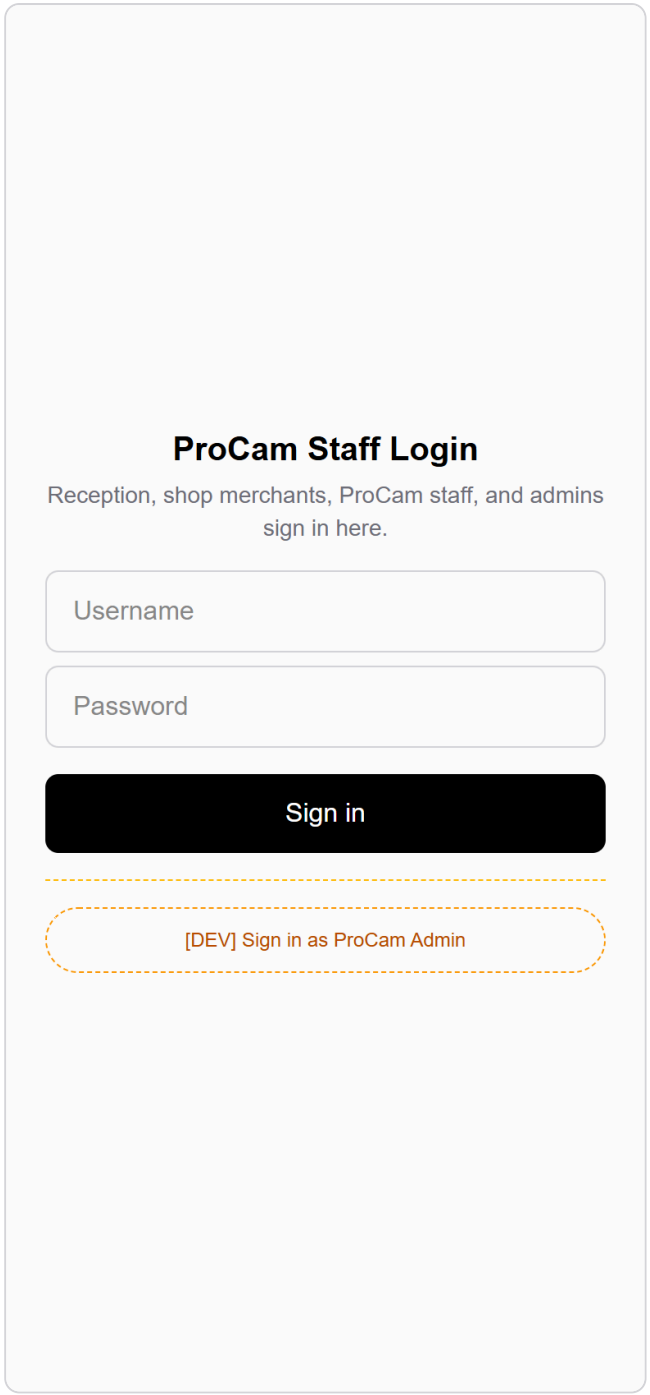

Part 1 · Start of the day	2 screens
Part 2 · A customer who booked online	6 screens
Part 3 · A walk-in customer	6 screens
Part 4 · While the drone is out	3 screens
Part 5 · When the drone comes back	3 screens
Part 6 · Your earnings	1 screen

1

PART 1 · START OF THE DAY

Step 1 · Sign in

Sign in with the username and password the admin gave you. You land on your dashboard.

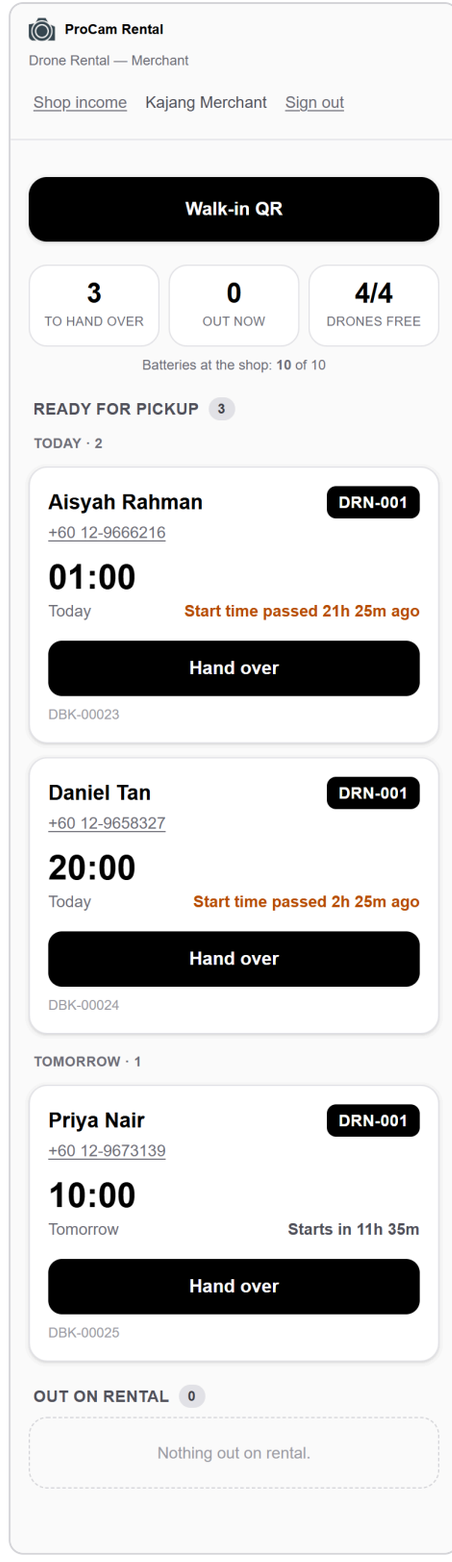

2

PART 1 · START OF THE DAY

Step 2 · Check who is coming

The pickup list shows today and tomorrow only, soonest first. Walk-in orders that need you appear in a green box at the top. Online orders only appear once the customer has paid, so everything listed is paid for. Tap a booking when the customer arrives.

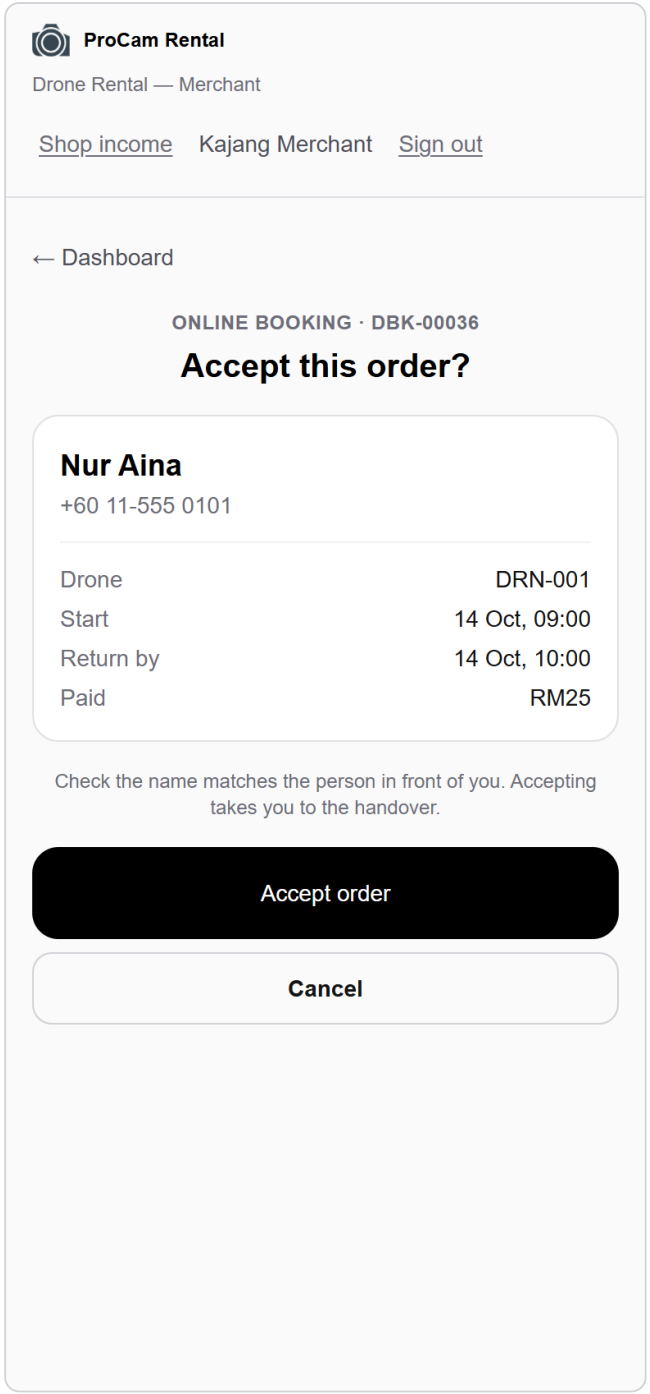

3

PART 2 · A CUSTOMER WHO BOOKED ONLINE

Step 3 · Scan their QR and accept

The customer shows the QR on their phone. Scan it, check the name matches the person in front of you, then tap Accept order.

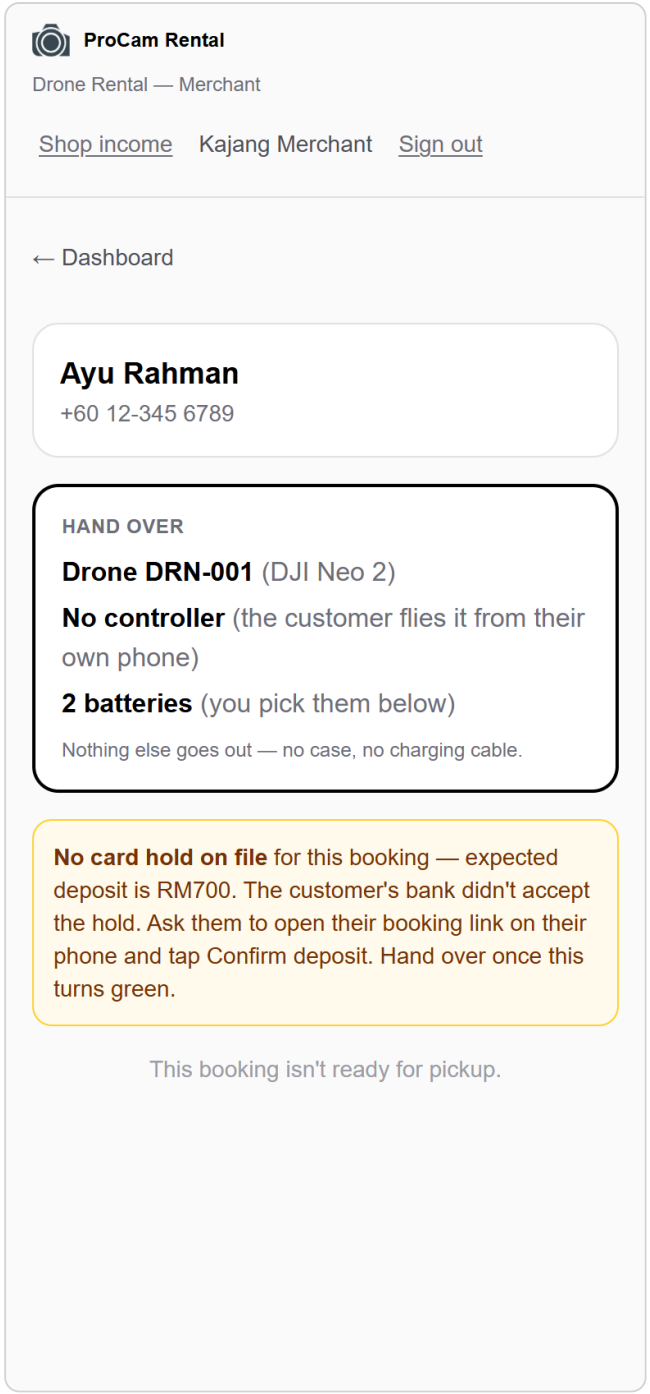

4

PART 2 · A CUSTOMER WHO BOOKED ONLINE

Step 3b · If the deposit isn't held

Sometimes the customer's bank doesn't accept the automatic deposit hold. The handover page then says No card hold on file and stays locked. Ask the customer to open their booking link on their phone and tap Confirm deposit. When the page shows Deposit held in green, carry on.

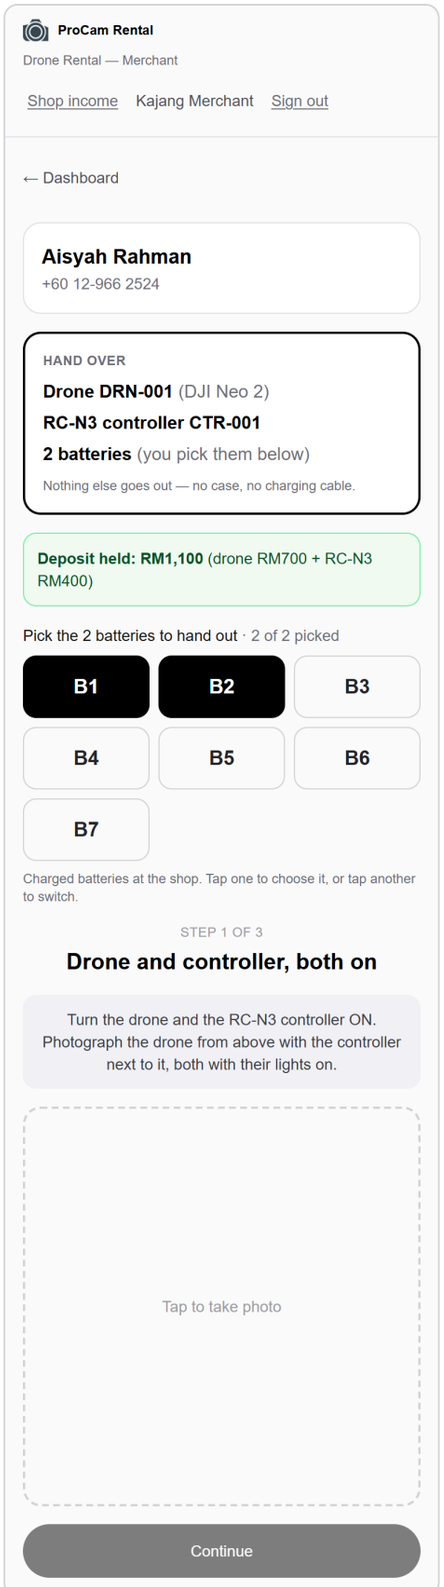

5

PART 2 · A CUSTOMER WHO BOOKED ONLINE

Step 4 · Check what goes out, take the first photo

The handover page says who it's for and what goes out: the drone, the controller if they rented one (an RC-N3 such as CTR-001, or the goggles set GOG-001) and the batteries to give, by name (B1, B2). Tap which charged batteries you are handing over. Every rental needs 2 photos, one per page. The first is on this page: the drone from above with its controller, both switched on (or the drone alone for a phone-only rental).

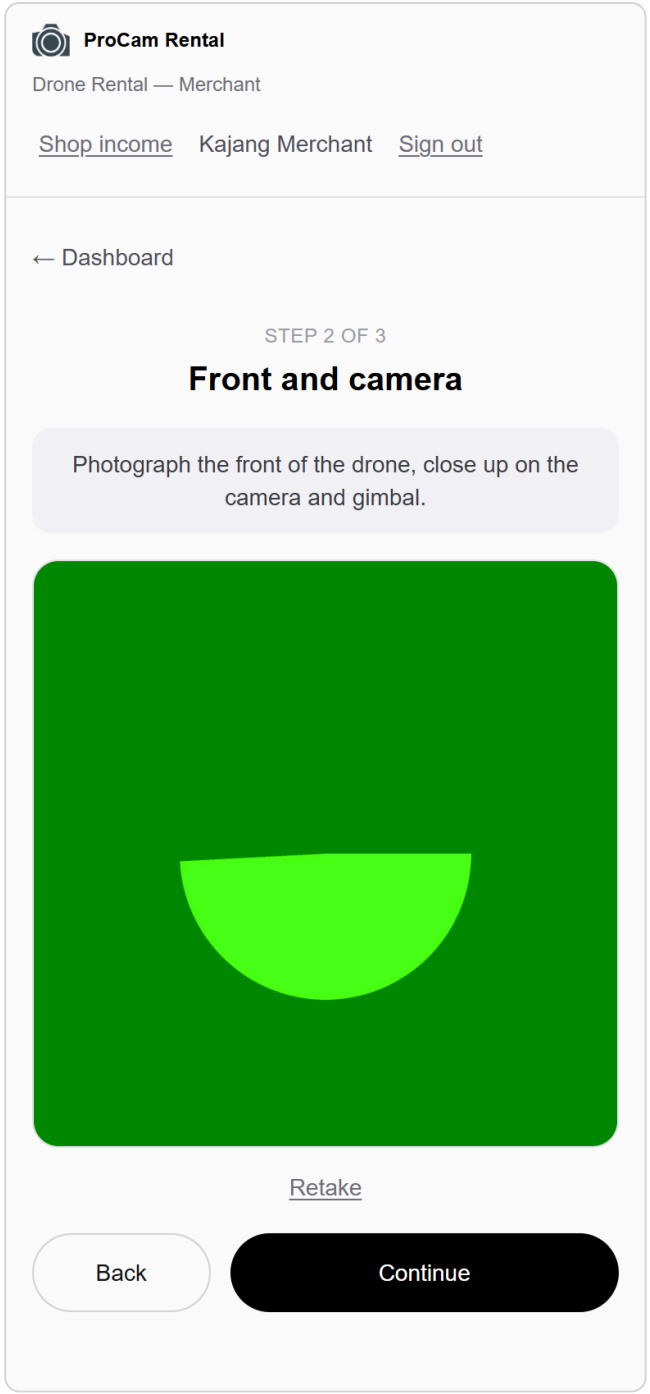

6

PART 2 · A CUSTOMER WHO BOOKED ONLINE

Step 5 · The second photo

Front and camera: the front of the drone, close up on the camera and gimbal. Take it, check it shows, then Continue. Back keeps the photo you already took.

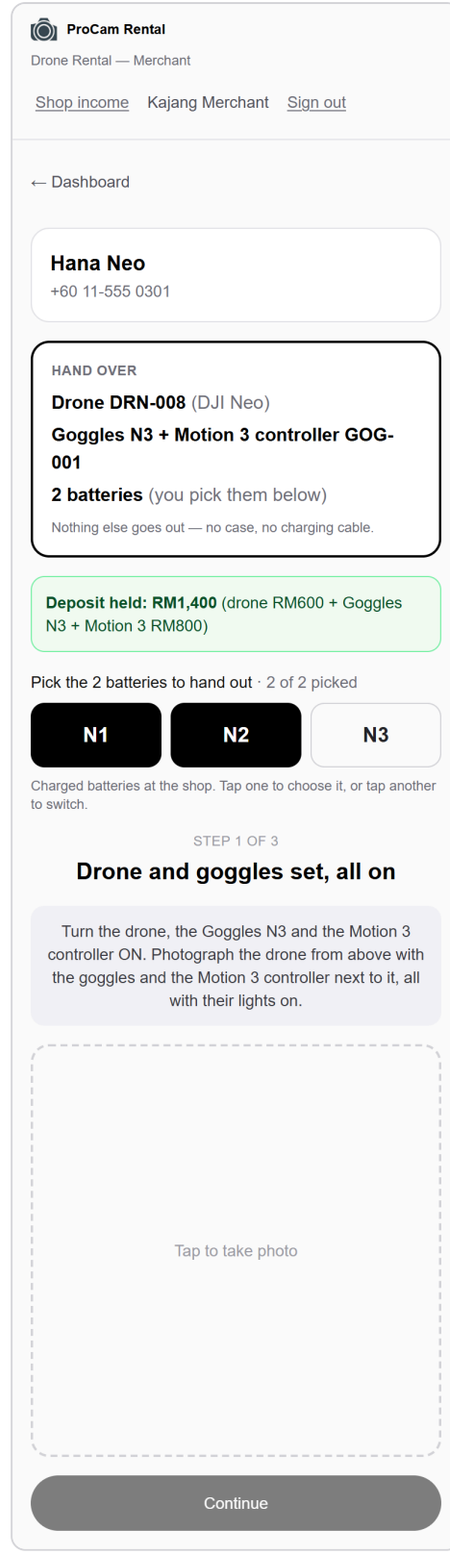

7

PART 2 · A CUSTOMER WHO BOOKED ONLINE

Step 4b · If they rented the goggles

The handover then names the goggles set (GOG-001) and the first photo shows the drone with the goggles and the Motion 3 controller, all on. The checklist has a goggles item instead of the RC-N3 one.

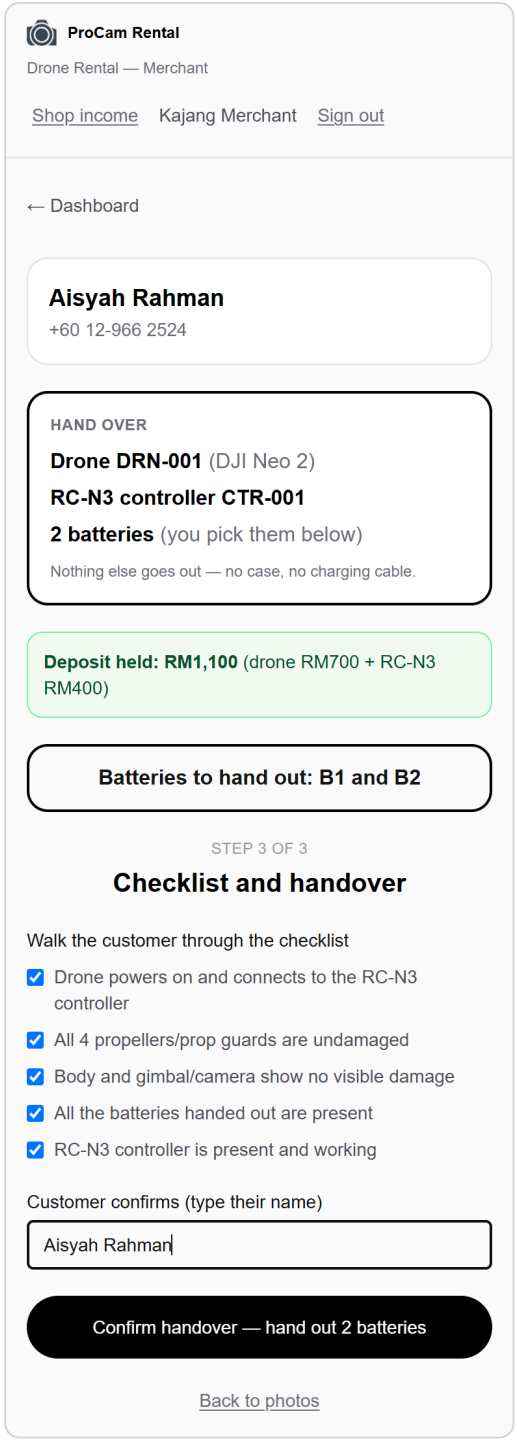

8

PART 2 · A CUSTOMER WHO BOOKED ONLINE

Step 6 · Checklist and the customer's name

After the 2nd photo: tick the checklist, have the customer type their name, then tap Confirm handover. The rental starts.

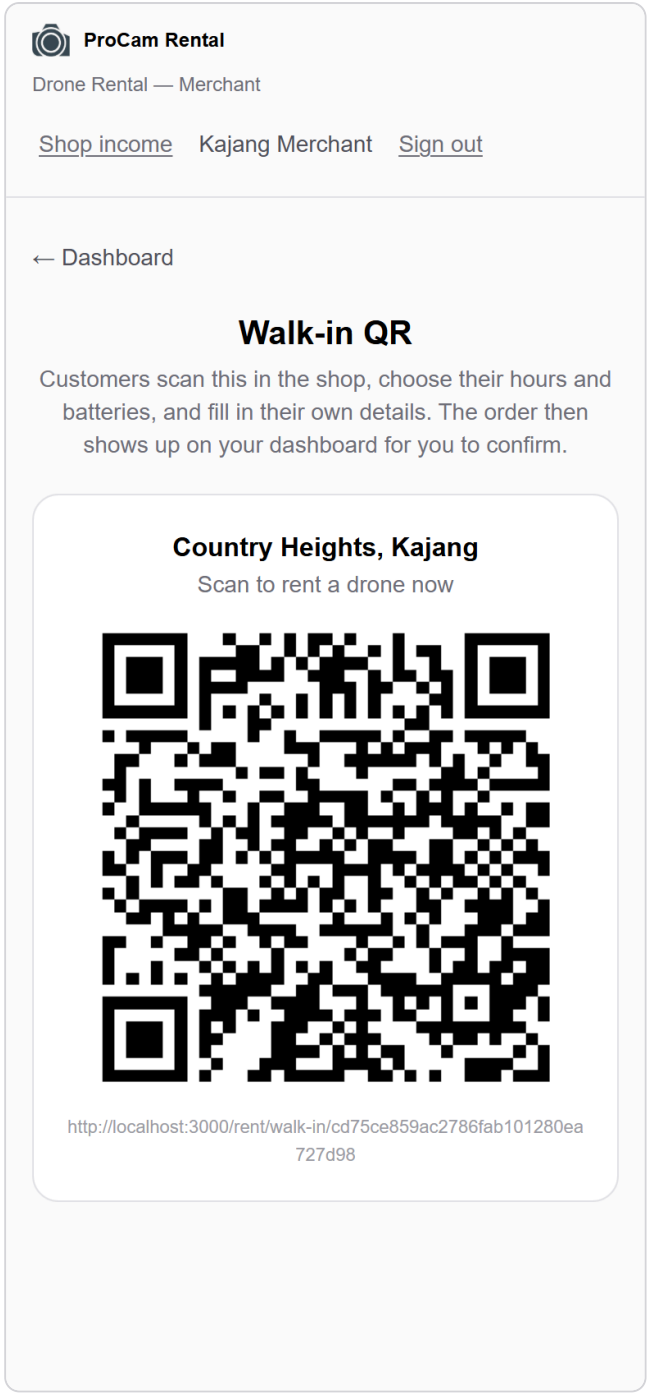

9

PART 3 · A WALK-IN CUSTOMER

Step 7 · Show the shop's walk-in QR

Open Walk-in QR from your dashboard and show it on the counter. The customer scans it and fills in their own details. It never changes.

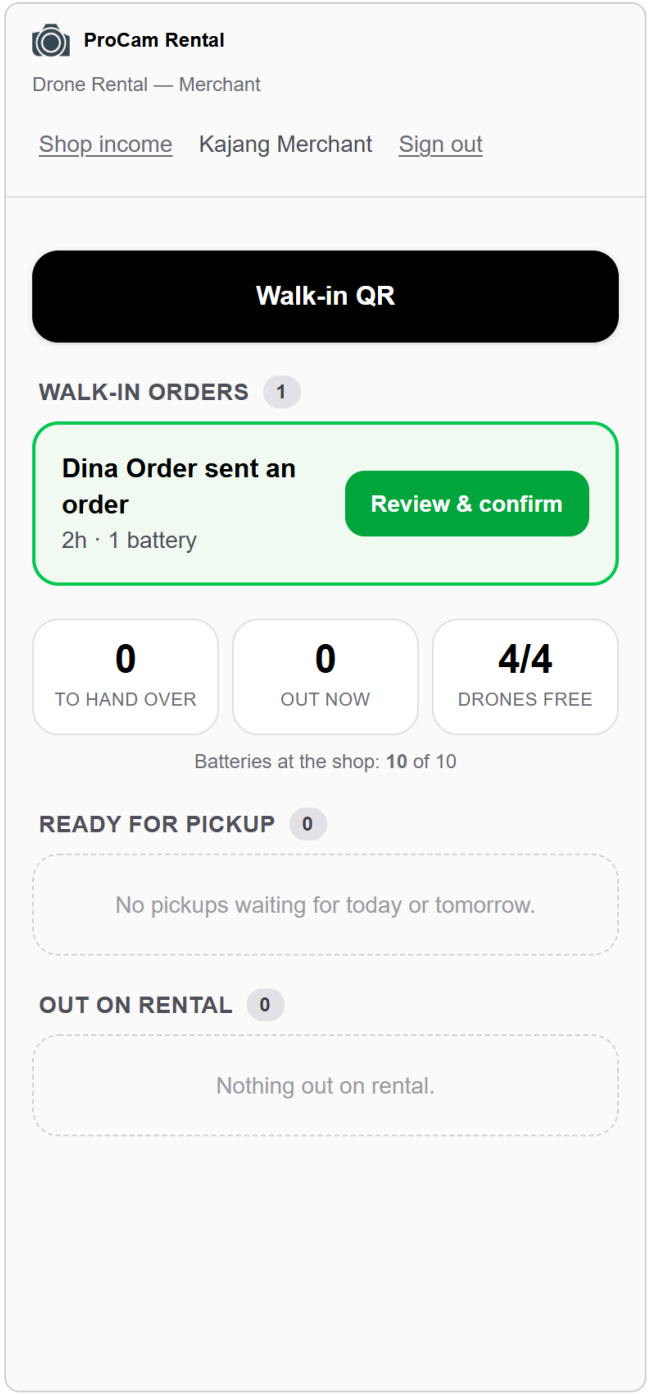

10

PART 3 · A WALK-IN CUSTOMER

Step 8 · Their order arrives

A green Walk-in orders box appears on your dashboard. Tap Review & confirm.

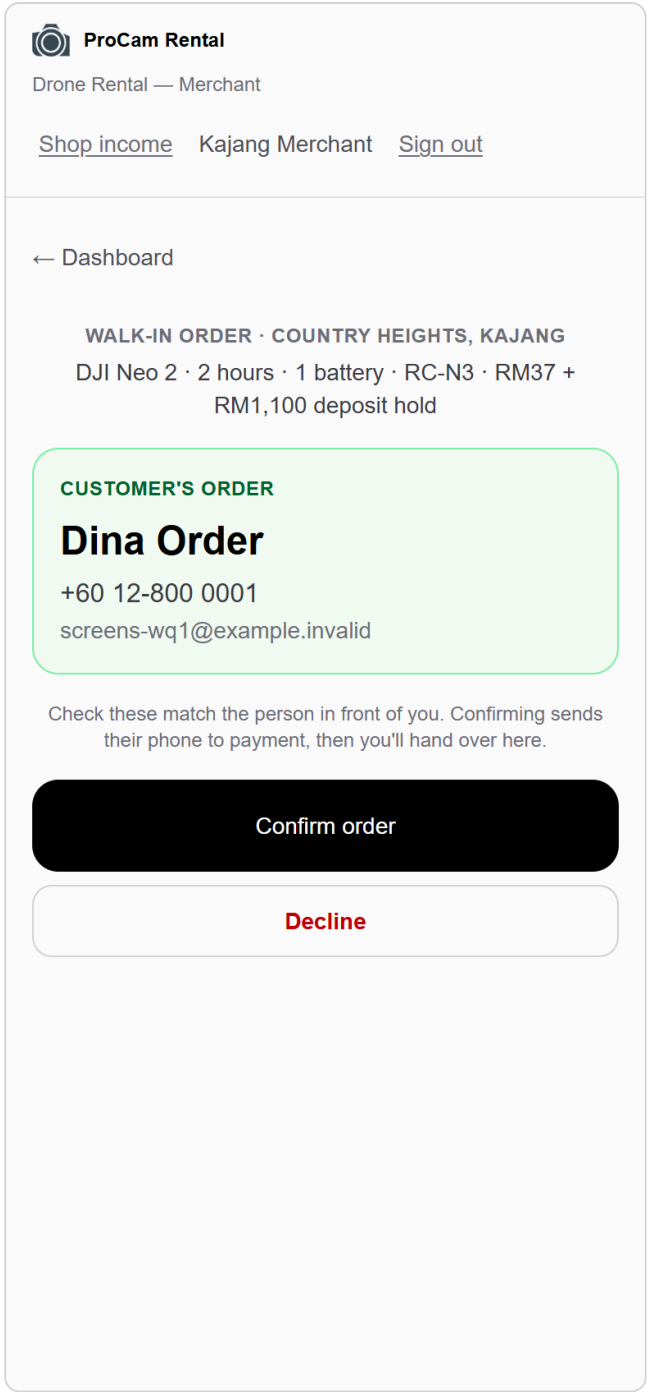

11

PART 3 · A WALK-IN CUSTOMER

Step 9 · Check the name and confirm

Check the name against the person in front of you, then tap Confirm order. A free drone is assigned for you (there's nothing to choose), and the customer's phone moves on to payment.

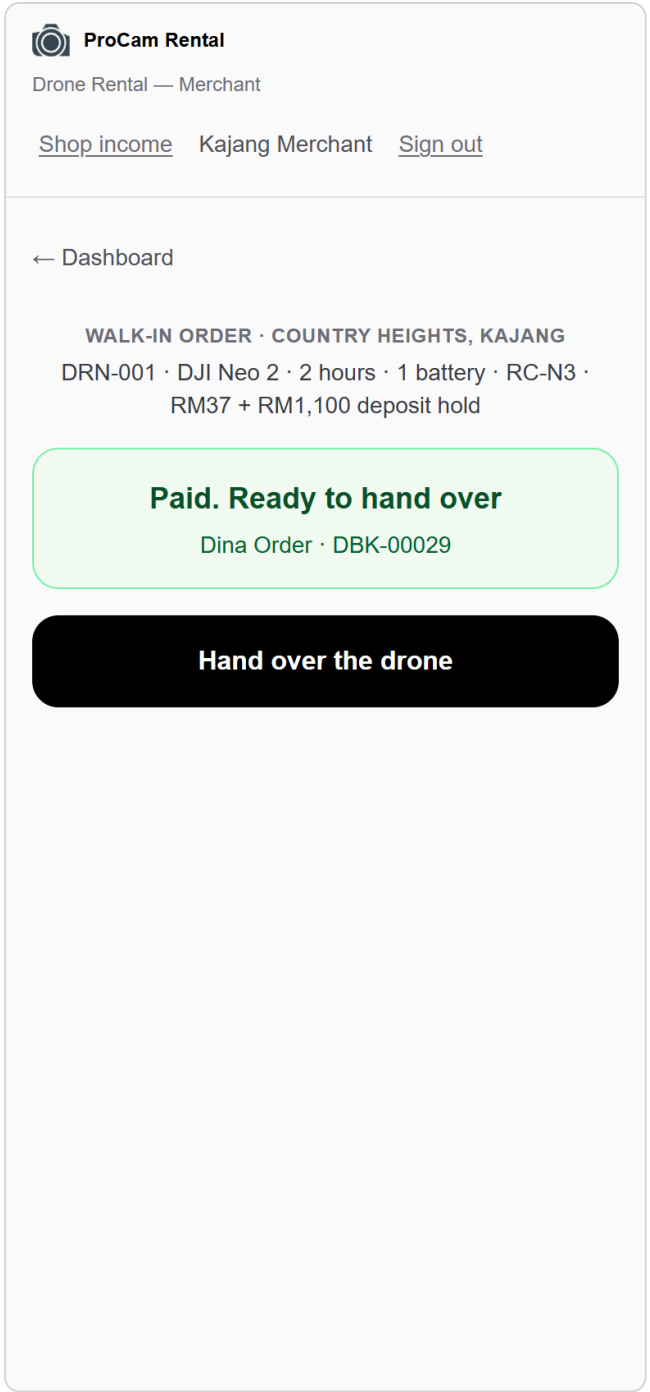

12

PART 3 · A WALK-IN CUSTOMER

Step 10 · Customer pays by card

Their phone does the payment. This screen turns to Paid when it goes through. Tap Hand over the drone.

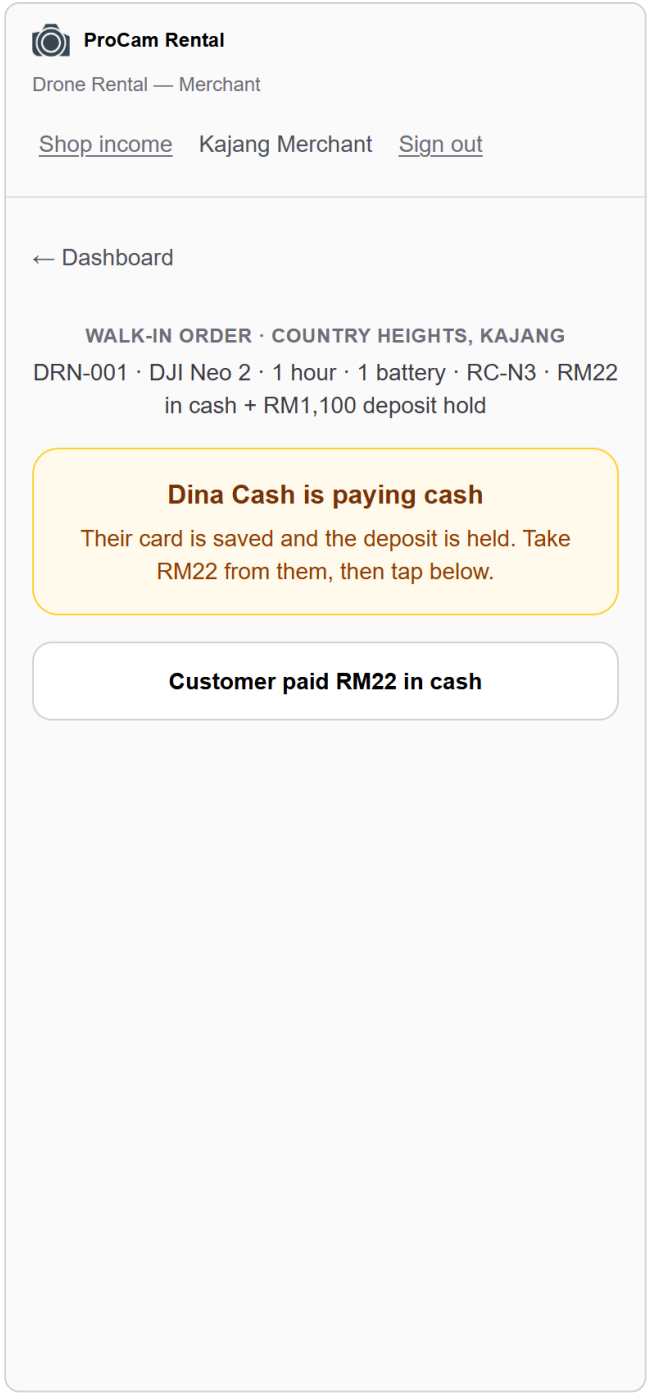

13

PART 3 · A WALK-IN CUSTOMER

Step 10 · Or the customer pays cash

If they choose cash on their phone, they still enter their card for the deposit. Take the cash, then tap Customer paid in cash.

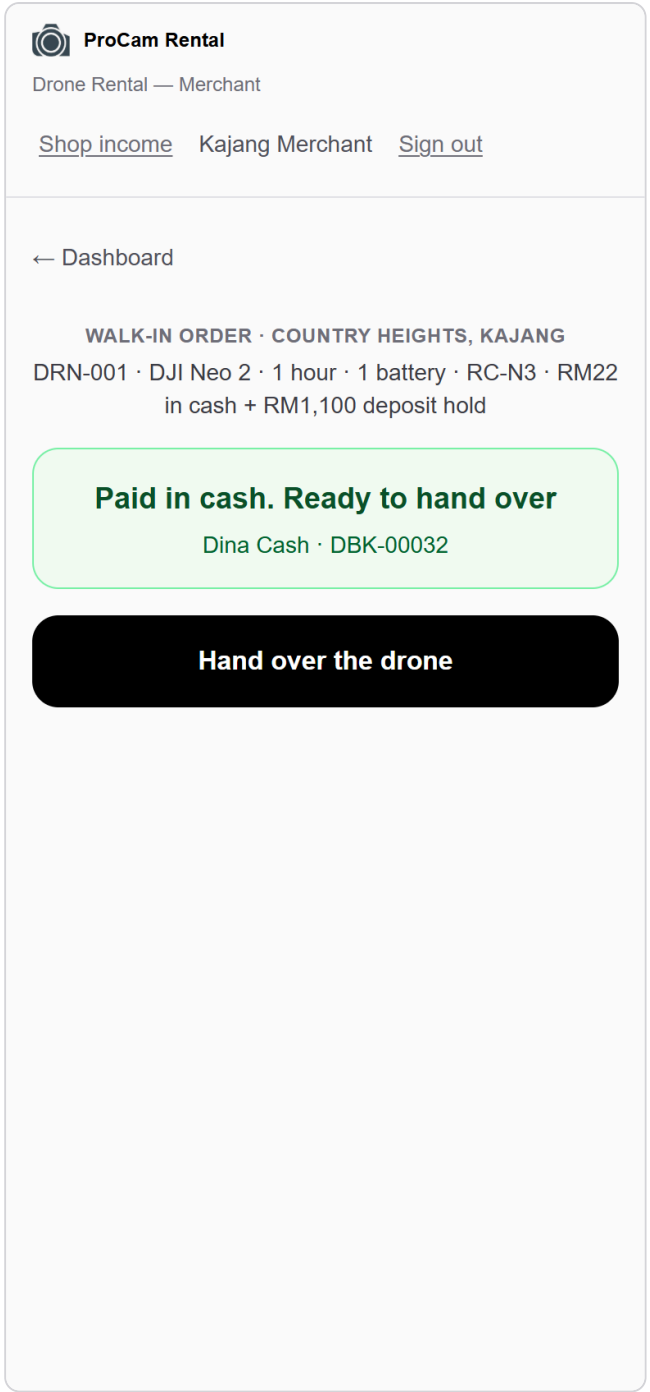

14

PART 3 · A WALK-IN CUSTOMER

Step 10 · Cash taken

It now says Paid in cash. Tap Hand over the drone, then do Steps 4 to 6 above, exactly the same as an online booking.

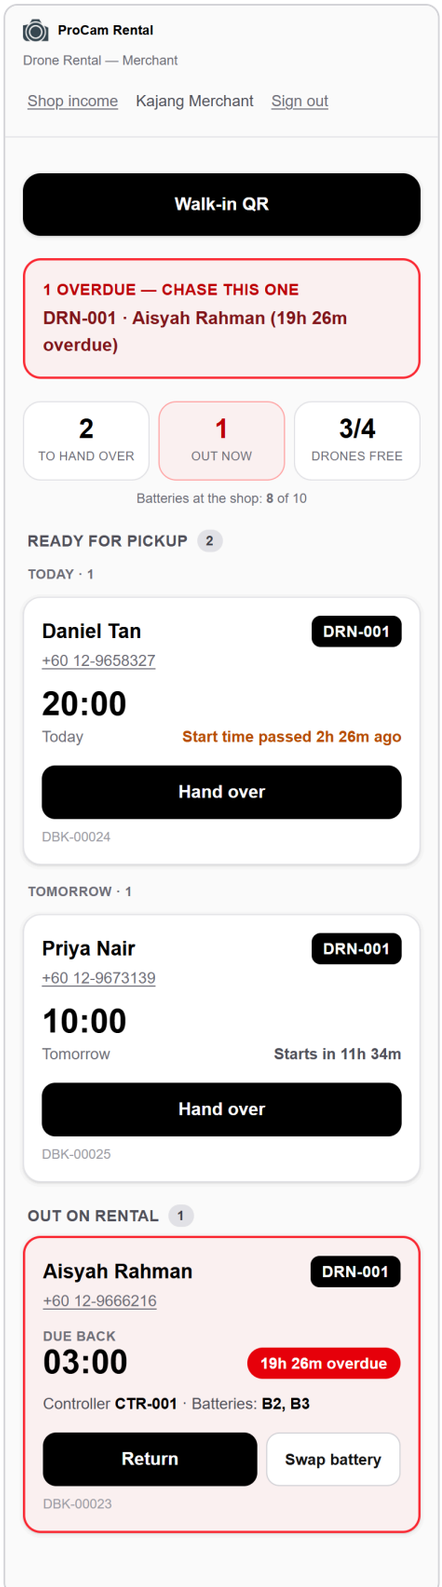

15

PART 4 · WHILE THE DRONE IS OUT

Step 11 · Keep an eye on rentals

Each rental on your dashboard shows the customer, the drone, its controller and the batteries they are holding. Due-back time is shown too.

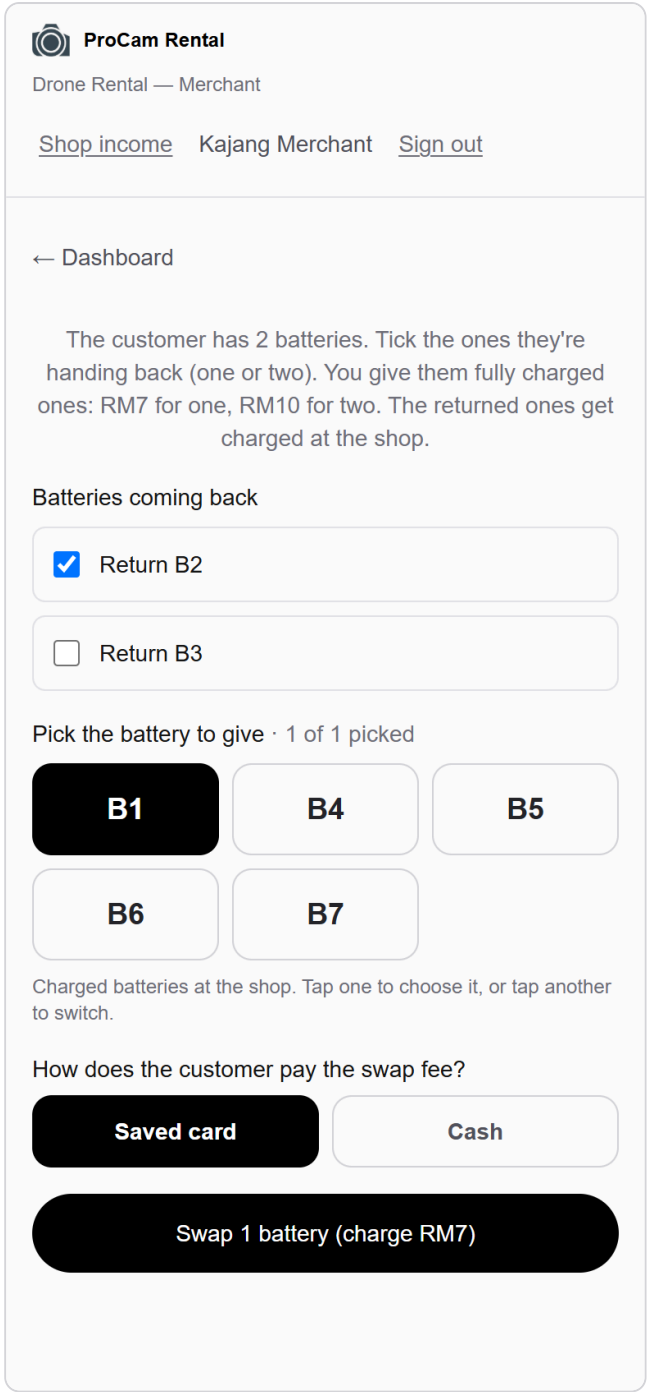

16

PART 4 · WHILE THE DRONE IS OUT

Step 12 · Swap batteries if they ask

Tap Battery swap. Tick the batteries they hand back, then tap the same number of charged batteries to give them. The fee is shown on the button (RM7 for one battery, RM10 for two).

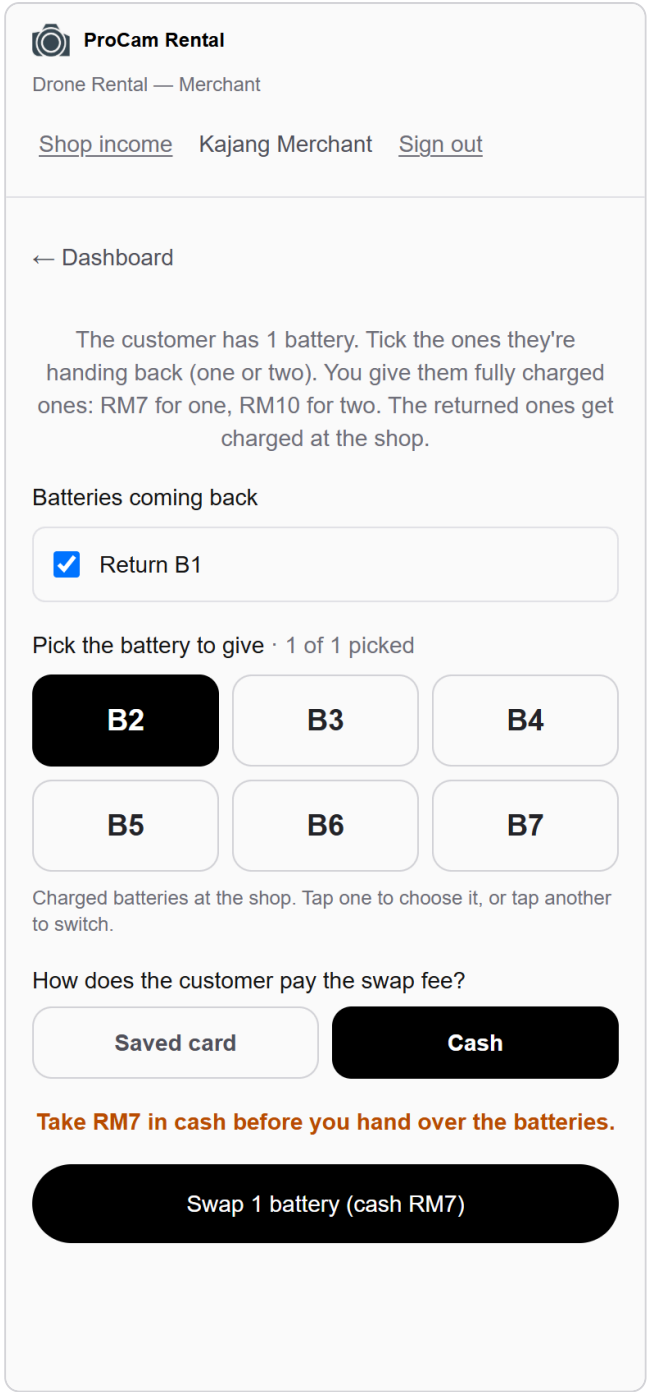

17

PART 4 · WHILE THE DRONE IS OUT

Step 12 · How they pay for the swap

Choose Saved card (charged for you) or Cash. If it's cash, take the money before you hand over the batteries. This is separate from how they paid the rental.

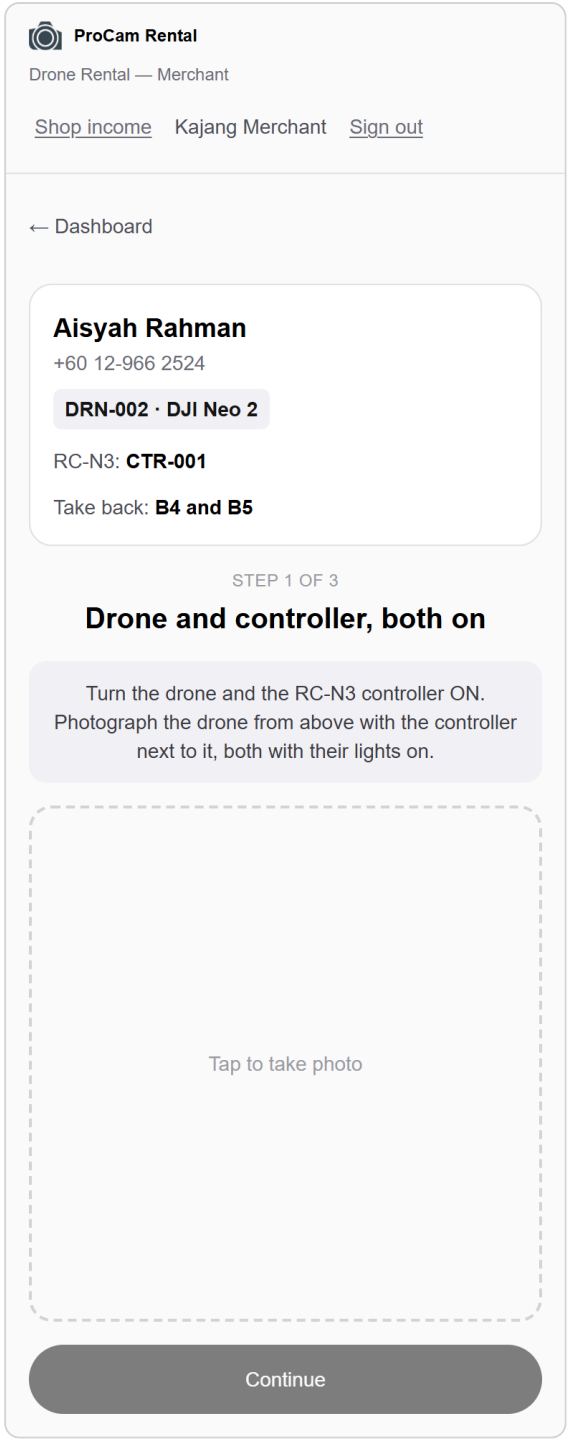

18

PART 5 · WHEN THE DRONE COMES BACK

Step 13 · Take everything back

Tap Return. The top of the page lists what to take back: the controller (if they rented one) and the named batteries the customer is holding. The same 2 photos are taken again, one per page.

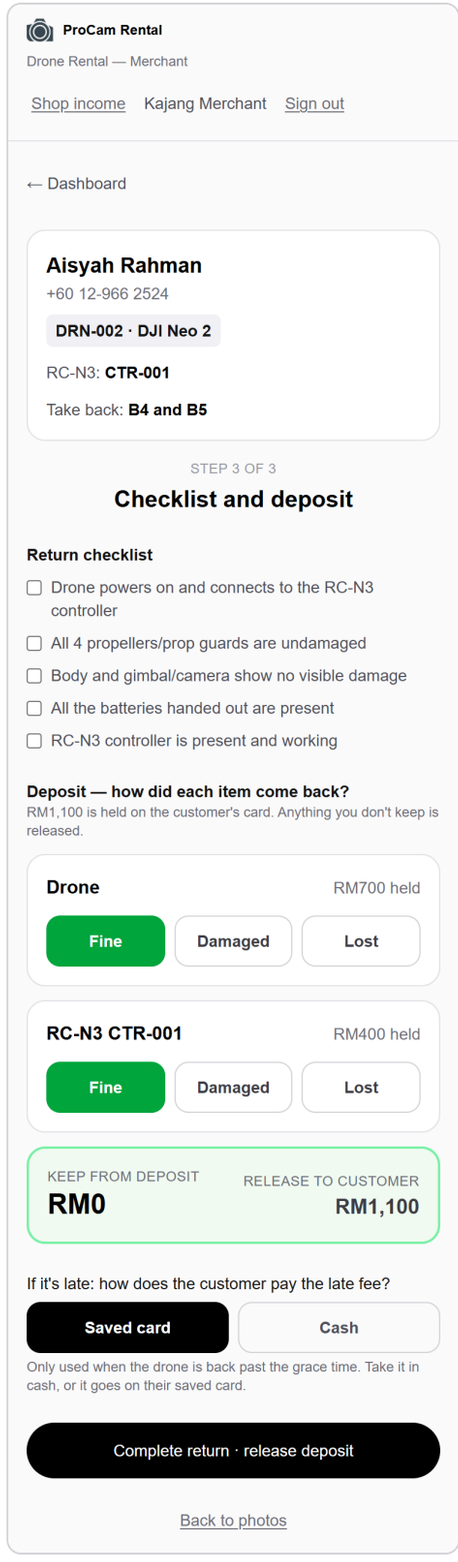

19

PART 5 · WHEN THE DRONE COMES BACK

Step 14 · Checklist and deposit

After the photos: tick the checklist, then say how the drone and the controller (if any) came back: Fine, Damaged or Lost. A lost item is kept from the deposit in full. For Damaged you type no amount: write what is damaged and ProCam reviews it that night and decides what to keep; the whole deposit stays held until then. At the bottom, choose how a late fee is paid (saved card or cash). It only applies if the drone is back past the grace time.

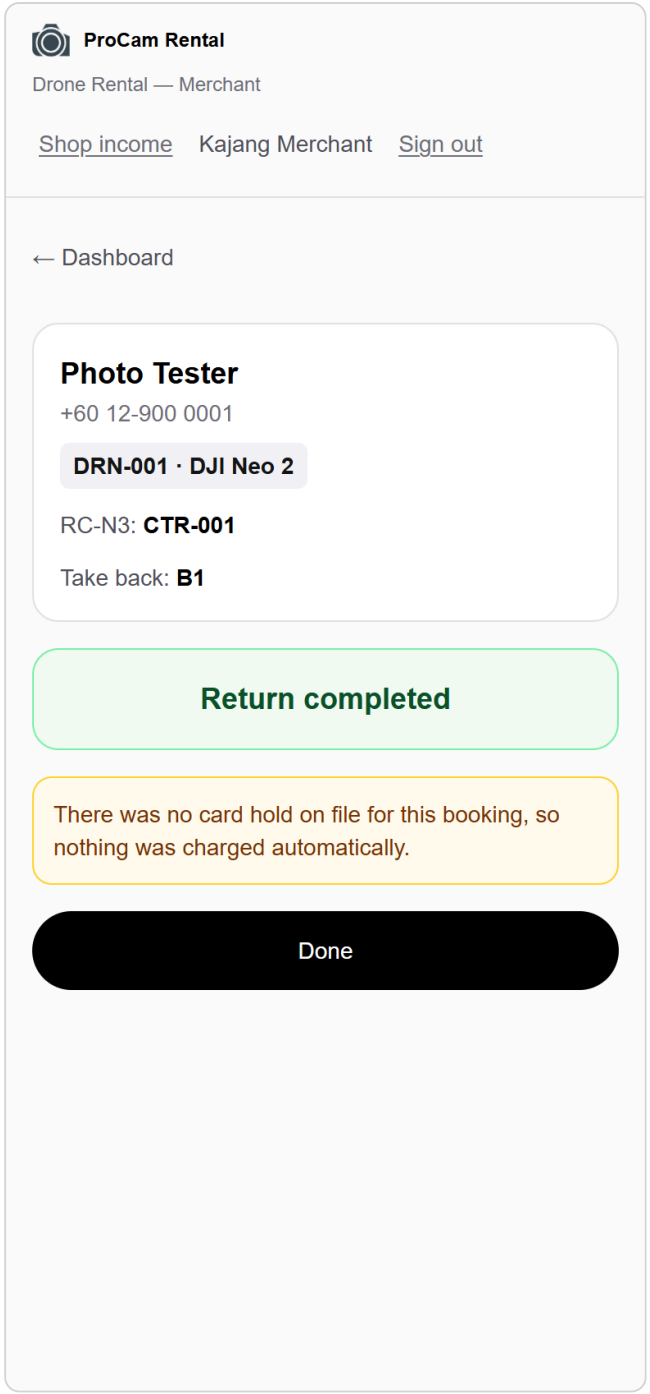

20

PART 5 · WHEN THE DRONE COMES BACK

Step 15 · Return complete

It confirms the outcome. The drone and batteries go back to available.

21

PART 6 · YOUR EARNINGS

Step 16 · Check Shop income

Tap Shop income at the top of any page. Your earnings this month are at the top, with how they are worked out. Tap the i next to a cost to see what it is. Below is the sales analysis. On that page the same link turns into Home.
