ProCam customer guide: how to rent a drone

How a customer checks the price, books, pays, collects, flies, swaps a battery at any shop and returns a ProCam drone, in the order they do it. Screens are from the app on a phone.

Part 1 · Find out the price	3 screens
Part 2 · Book and pay	12 screens
Part 3 · Collect it, fly it, swap a battery	5 screens
Part 4 · No booking: walk in at a shop	5 screens
Part 5 · Other languages, and help	6 screens

Part 1 · Find out the price

You don't need an account for any of this. The home page shows the drones, what they cost and how it works.

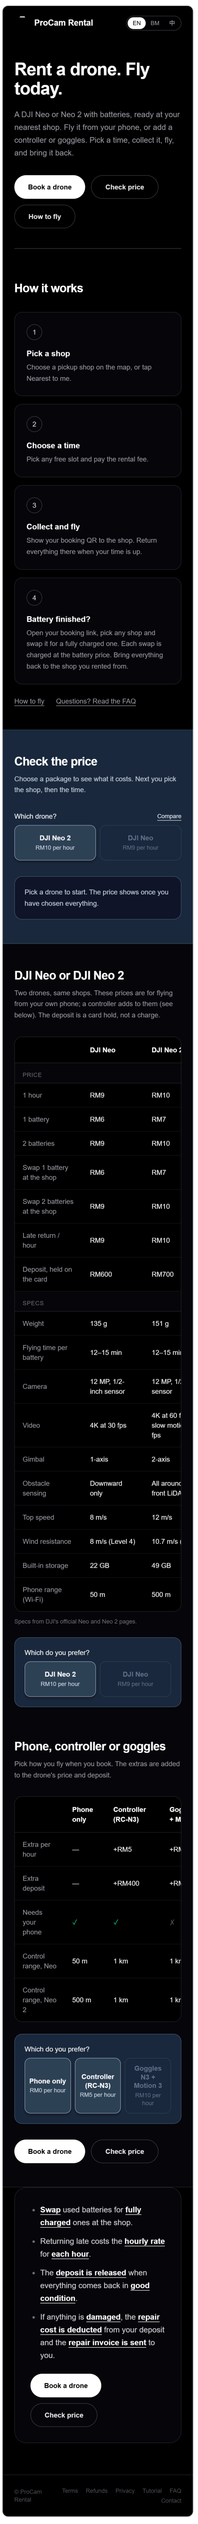

3 SCREENS

1

PART 1 · FIND OUT THE PRICE

The home page

Book a drone or Check price at the top, then How it works (four steps, the last one for a flat battery), the Check the price section, the two comparison tables, and the three rules of the kit. The three-letter switch at the top of every page changes the language: EN, BM (Bahasa Melayu) or 中 (Chinese).

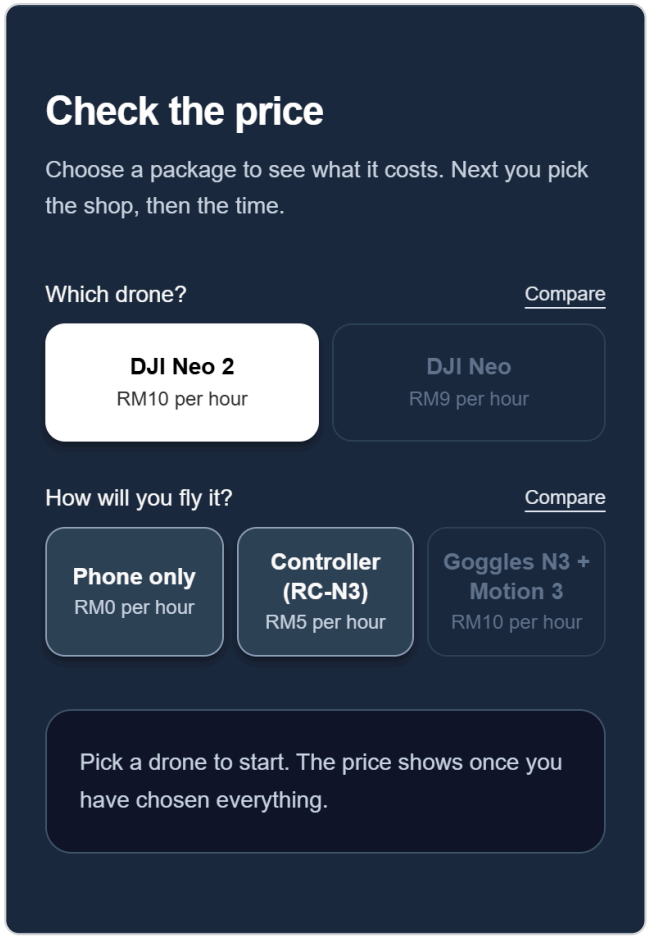

2

PART 1 · FIND OUT THE PRICE

Check the price

Choose a drone, how you will fly it (your own phone, or the controller (RC-N3)), for how long, and how many batteries. A drone or way of flying we do not have right now is greyed out and says Not available right now, but you can still read about it in the comparison. Once all four are chosen you see the picture, the price and the deposit, with a Choose the location button. Nothing is booked yet.

3

PART 1 · FIND OUT THE PRICE

Not sure which one? Compare

Under each comparison table, and beside each choice, you can compare the drones or the ways of flying side by side and pick the one you like. Choosing one fills it in for you.

DJI Neo or DJI Neo 2

Two drones, same shops. These prices are for flying from your own phone; a controller adds to them (see below). The deposit is a card hold, not a charge.

	DJI Neo	DJI Neo 2
PRICE		
1 hour	RM9	RM10
1 battery	RM6	RM7
2 batteries	RM9	RM10
Swap 1 battery at the shop	RM6	RM7
Swap 2 batteries at the shop	RM9	RM10
Late return / hour	RM9	RM10
Deposit, held on the card	RM600	RM700
SPECS		
Weight	135 g	151 g
Flying time per battery	12–15 min	12–15 mi
Camera	12 MP, 1/2-inch sensor	12 MP, 1/ sensor
Video	4K at 30 fps	4K at 60 f slow moti fps
Gimbal	1-axis	2-axis
Obstacle sensing	Downward only	All around front LiDA
Top speed	8 m/s	12 m/s
Wind resistance	8 m/s (Level 4)	10.7 m/s
Built-in storage	22 GB	49 GB
Phone range (Wi-Fi)	50 m	500 m

Specs from DJI's official Neo and Neo 2 pages.

Which do you prefer?

DJI Neo 2
RM10 per hour

DJI Neo
RM9 per hour

Added to your package. Check the price

Phone, controller or goggles

Pick how you fly when you book. The extras are added to the drone's price and deposit.

	Phone only	Controller (RC-N3)	Gog + M
Extra per hour	—	+RM5	+RM
Extra deposit	—	+RM400	+RM
Needs your phone	✓	✓	✗
Control range, Neo	50 m	1 km	1 km
Control range, Neo 2	500 m	1 km	1 km

Which do you prefer?

Phone only
RM0 per hour

Controller (RC-N3)
RM5 per hour

Goggles N3 + Motion 3
RM10 per hour

Book a drone

Check price

Part 2 · Book and pay

Pick the shop, then the time, then your details. You pay at the end. A drone is only yours once your payment has gone through: if two people pay for the last drone at the same moment, the first one gets it and the other is refunded in full.

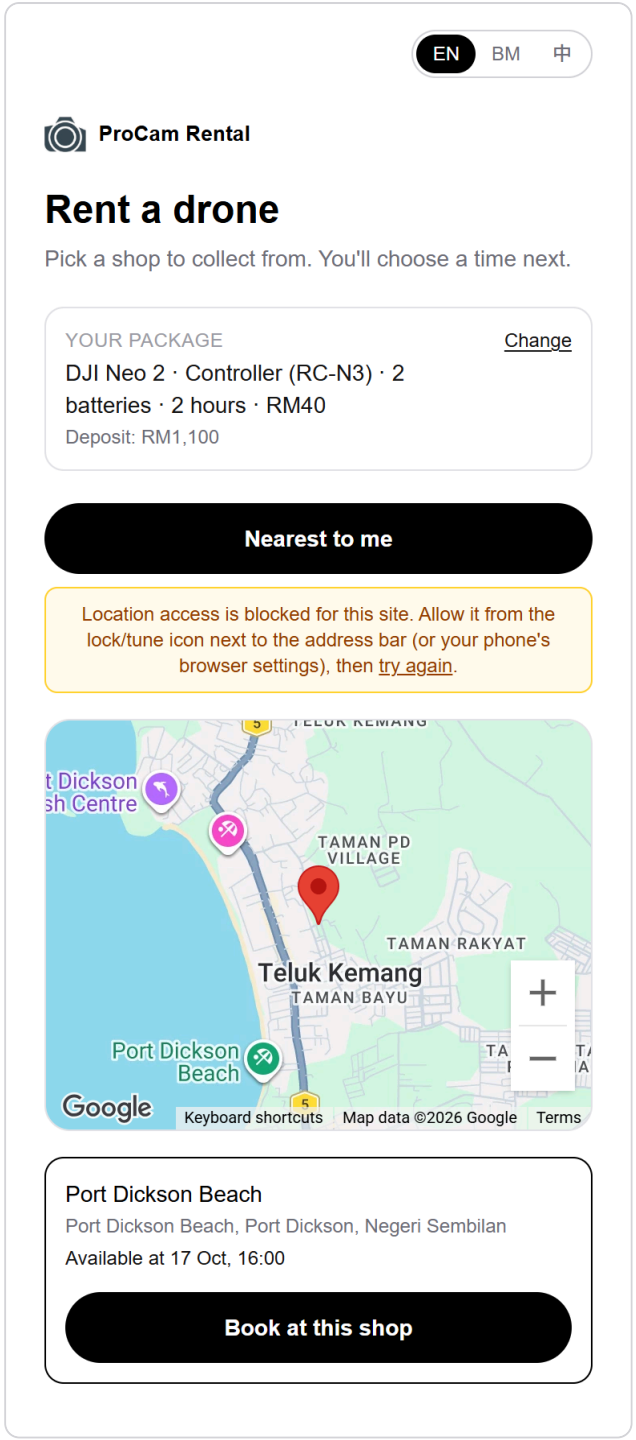

12 SCREENS

4

PART 2 · BOOK AND PAY

Choose the location

Your package is shown above the shops, with a Change link. Tap Nearest to me, or pick a shop on the map or in the list, then Book at this shop.

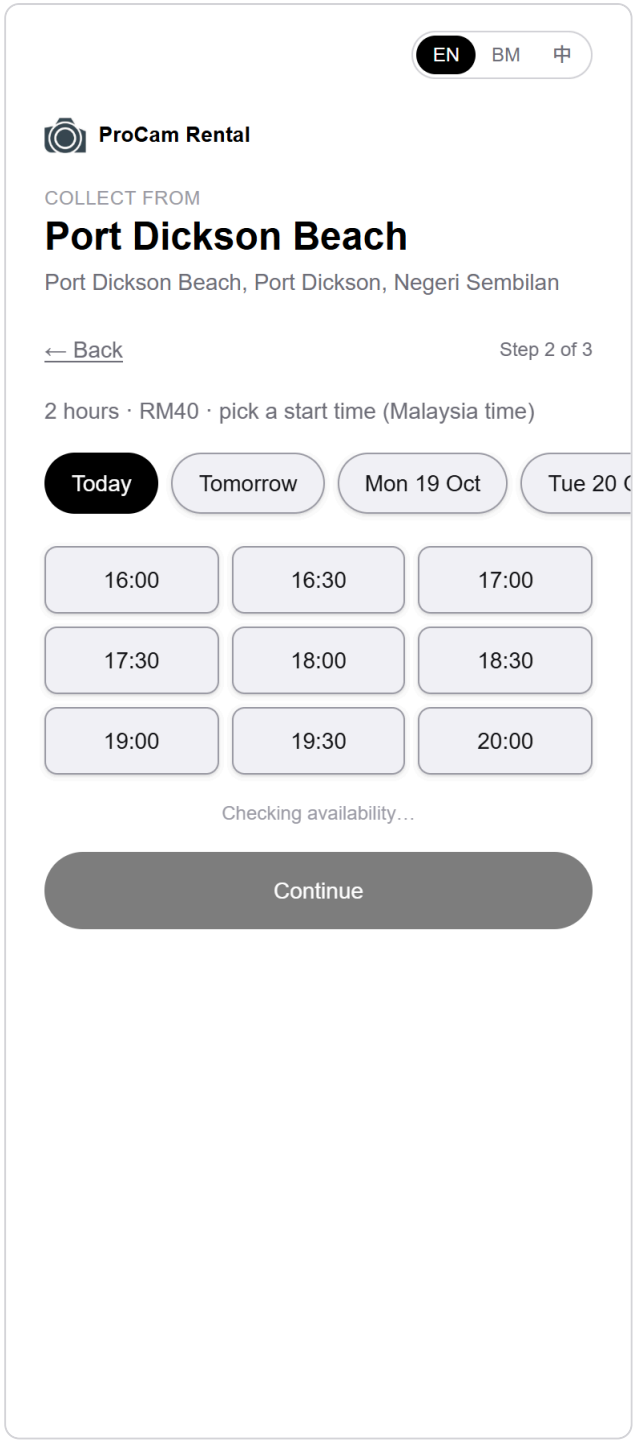

5

PART 2 · BOOK AND PAY

Pick a day and a time

The booking page opens at the times with your package already chosen. Times are every 30 minutes, in Malaysia time, and a rental has to finish before the shop closes. Times that are taken, or too windy to fly, are greyed out. Tap a start time and the whole rental lights up, from the start to the end, with the two times written under the grid. Back takes you to the package step if you want to change something.

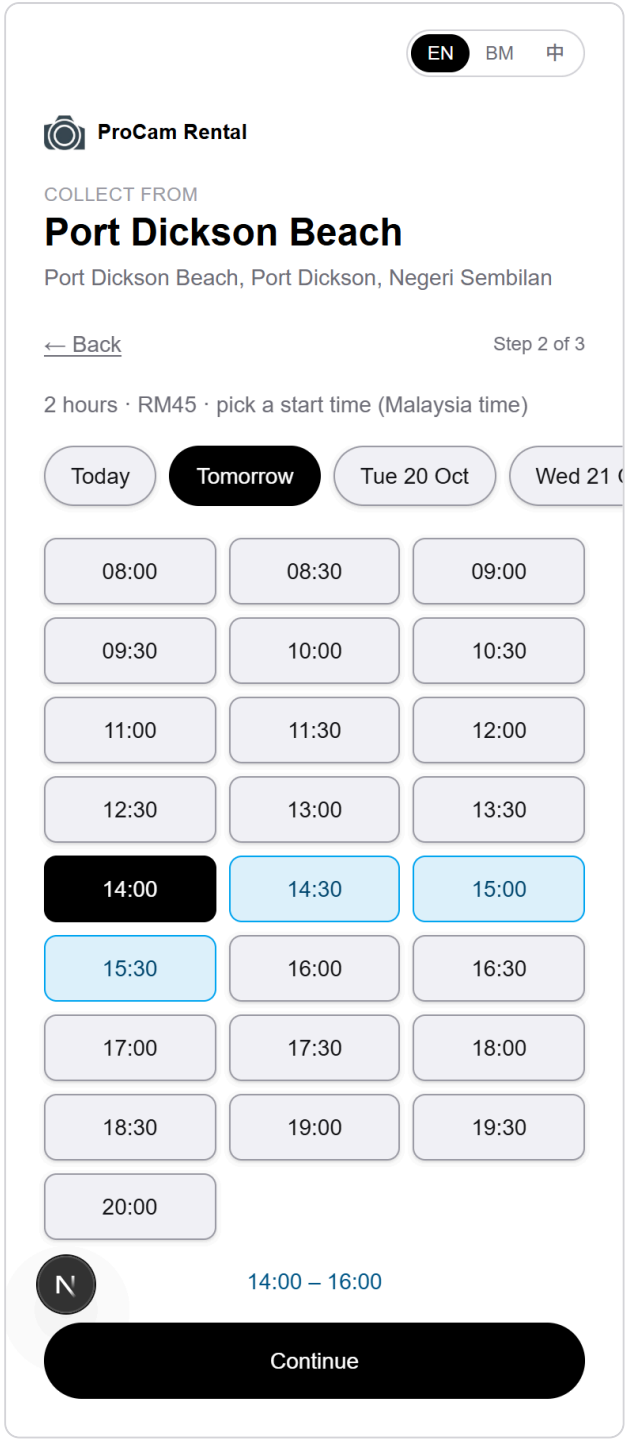

6

PART 2 · BOOK AND PAY

The whole rental lights up

When you tap a start time, every half hour of the rental lights up with it, and the start and end time are written under the grid, so you can see exactly when you have the drone. Times where no drone is free are greyed out.

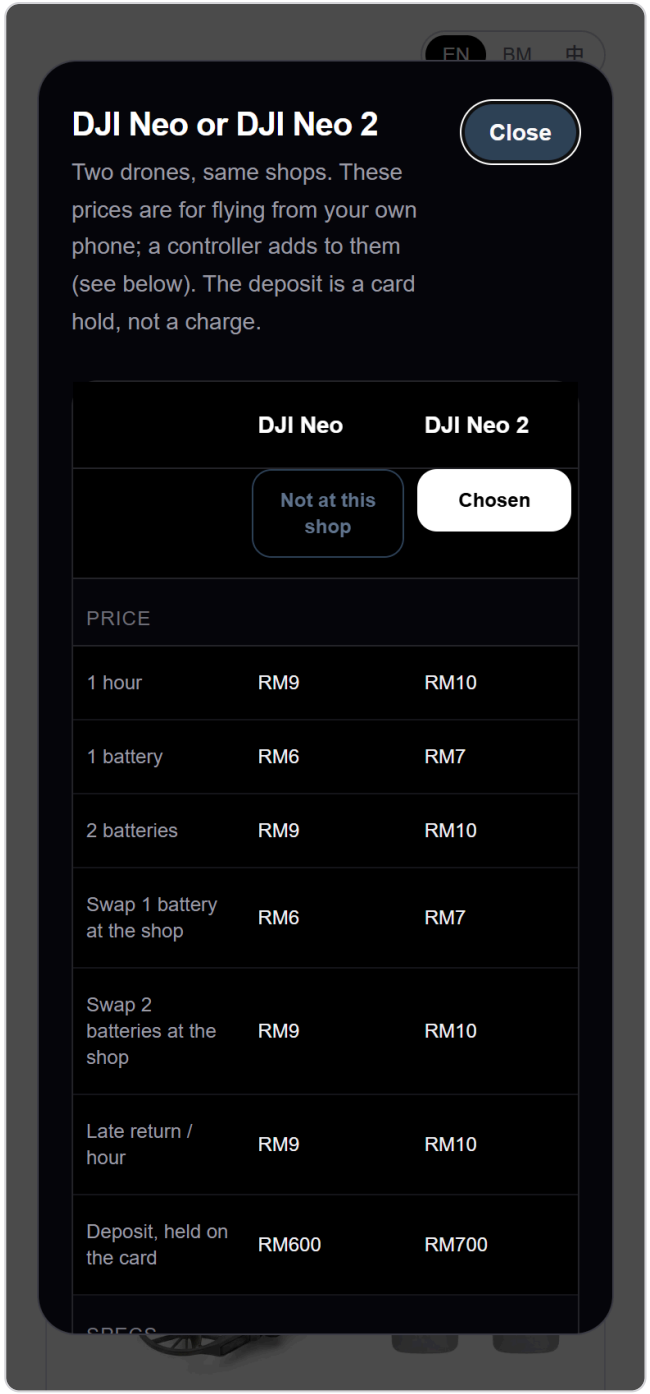

7

PART 2 · BOOK AND PAY

Compare before you choose

On the booking page, Compare beside the drone or the way of flying shows just the comparison table, with a Choose this button under each column. A drone or controller the shop does not have is greyed out and says Not at this shop.

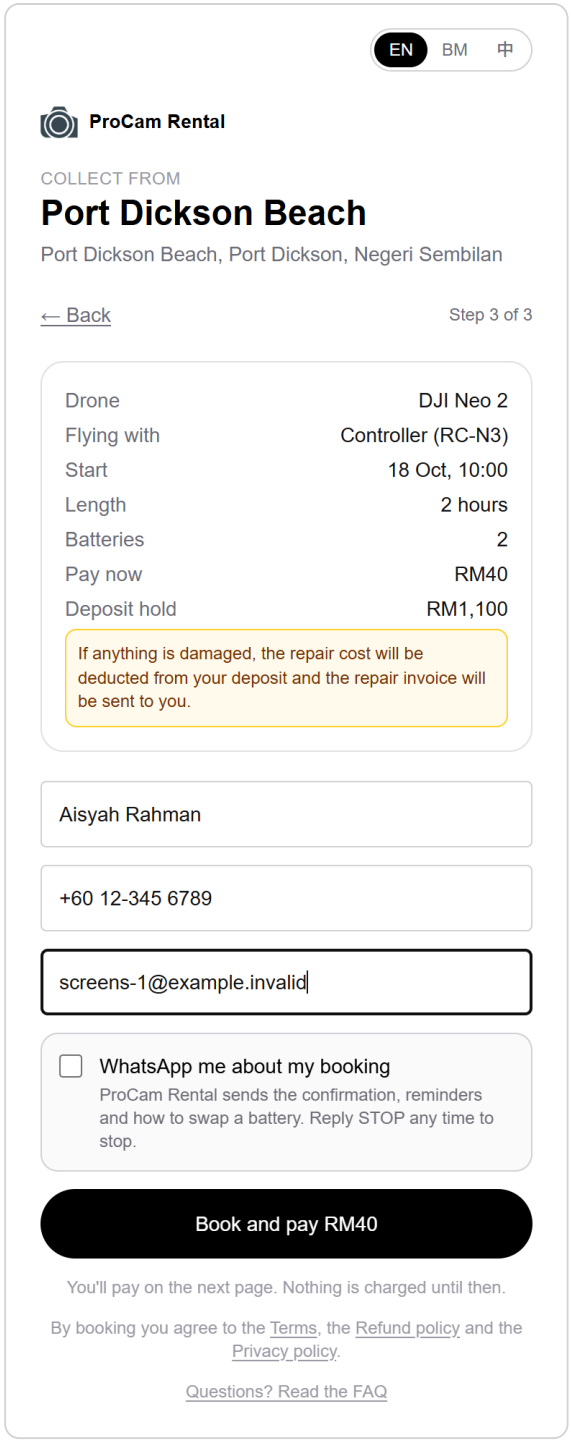

8

PART 2 · BOOK AND PAY

Your details

Your name, phone number and email. Add a WhatsApp number if you want the confirmation, reminders and how to swap a battery on WhatsApp. Leave it empty and we text your phone number instead. You can reply STOP any time.

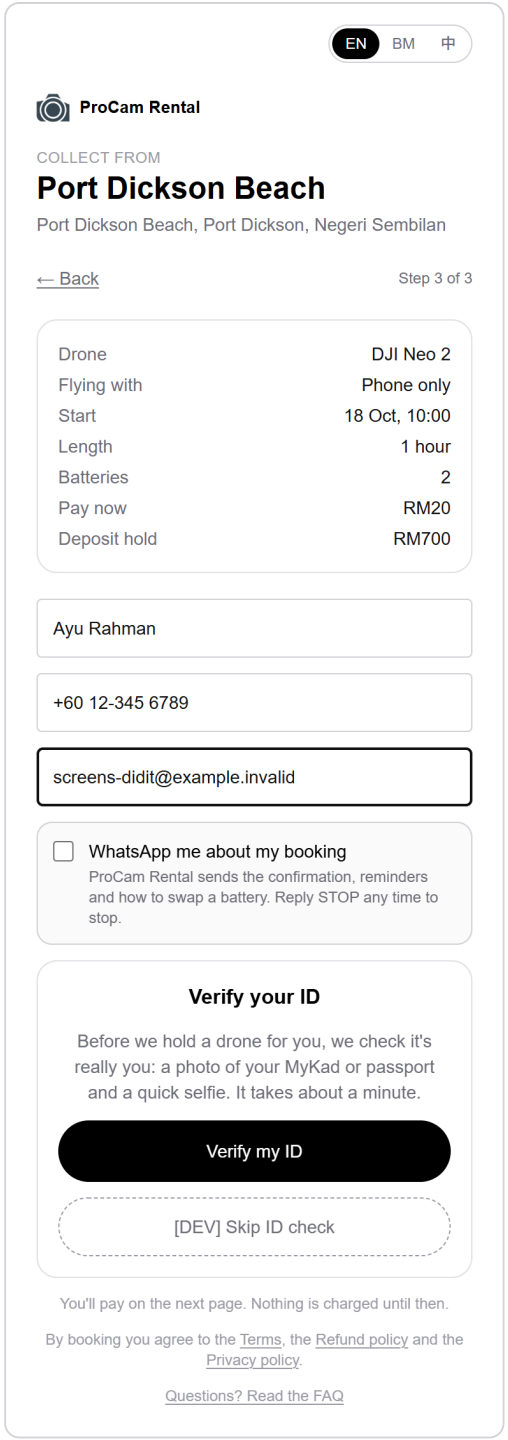

9

PART 2 · BOOK AND PAY

Verify your ID

Tap Verify my ID. You need your MyKad or passport and a quick selfie, done on your phone. Every booking has its own check, and nothing is charged before it passes.

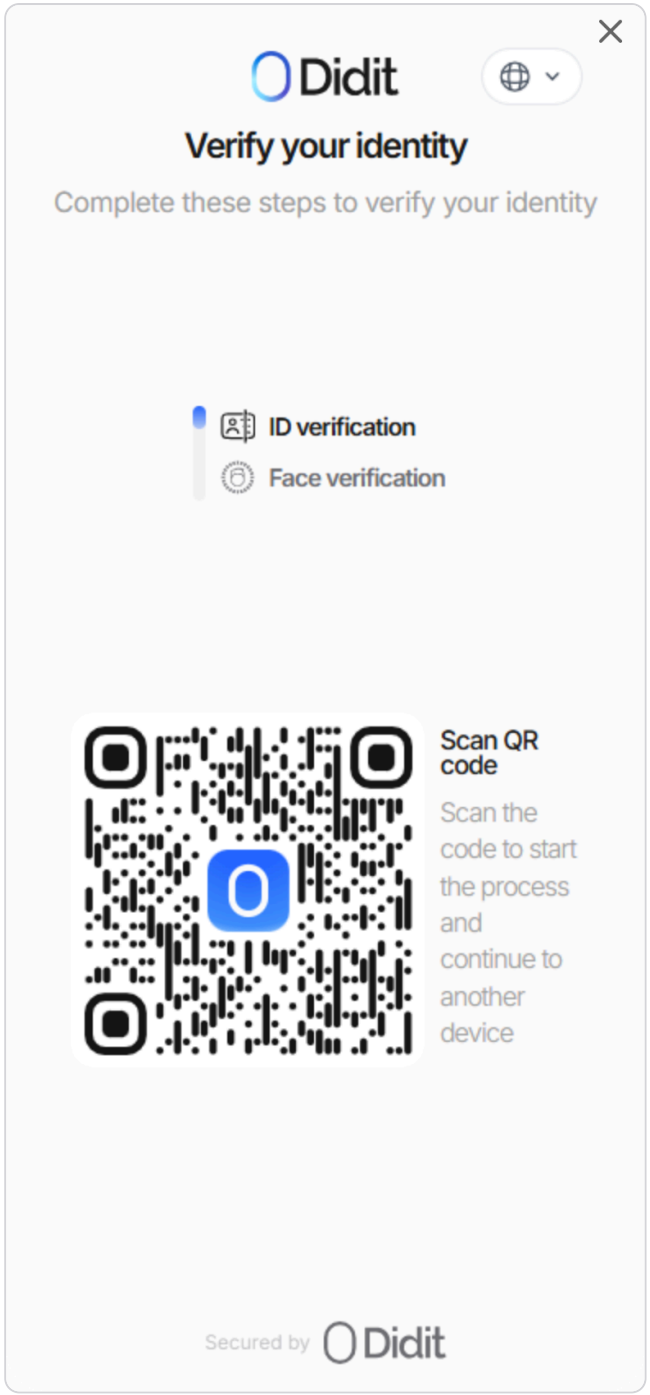

10

PART 2 · BOOK AND PAY

The ID check window

Didit's verification window opens over the page: your ID first, then a live selfie. On a computer it shows a QR code so you can carry on with your phone.

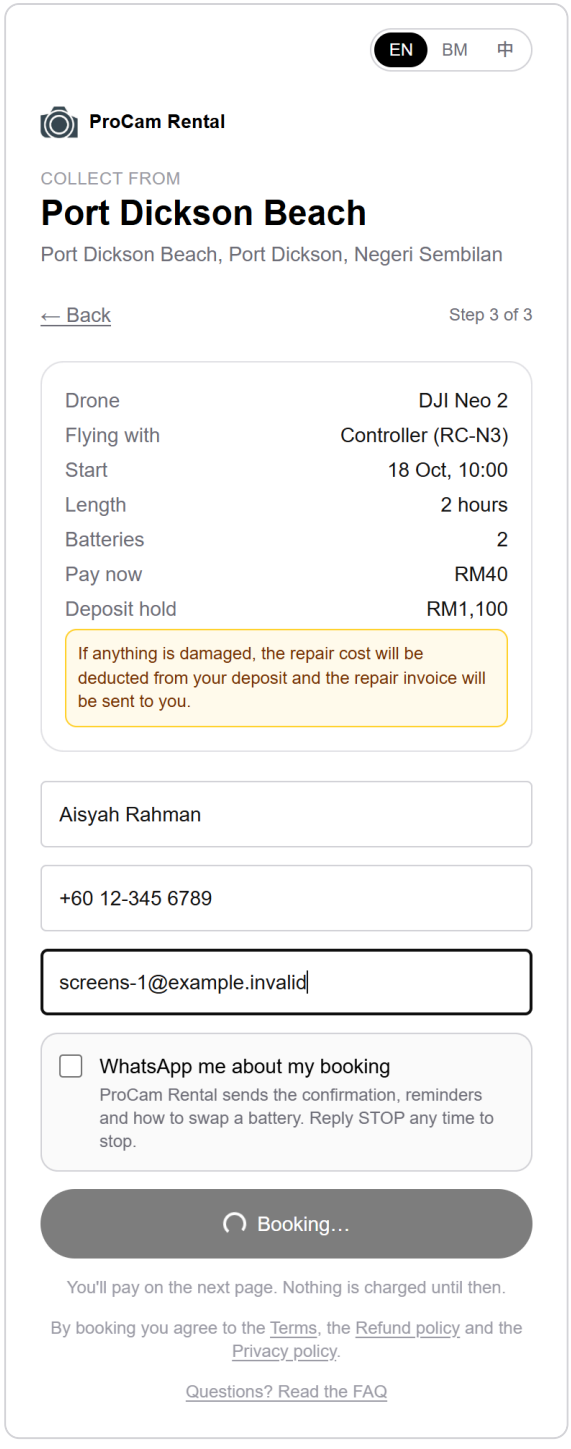

11

PART 2 · BOOK AND PAY

Pay

The summary shows what you pay now and the deposit, which is only a hold on your card and not a charge. You can pay by card here. The deposit is checked first: if it can't be held on your card, nothing is charged and nothing is booked.

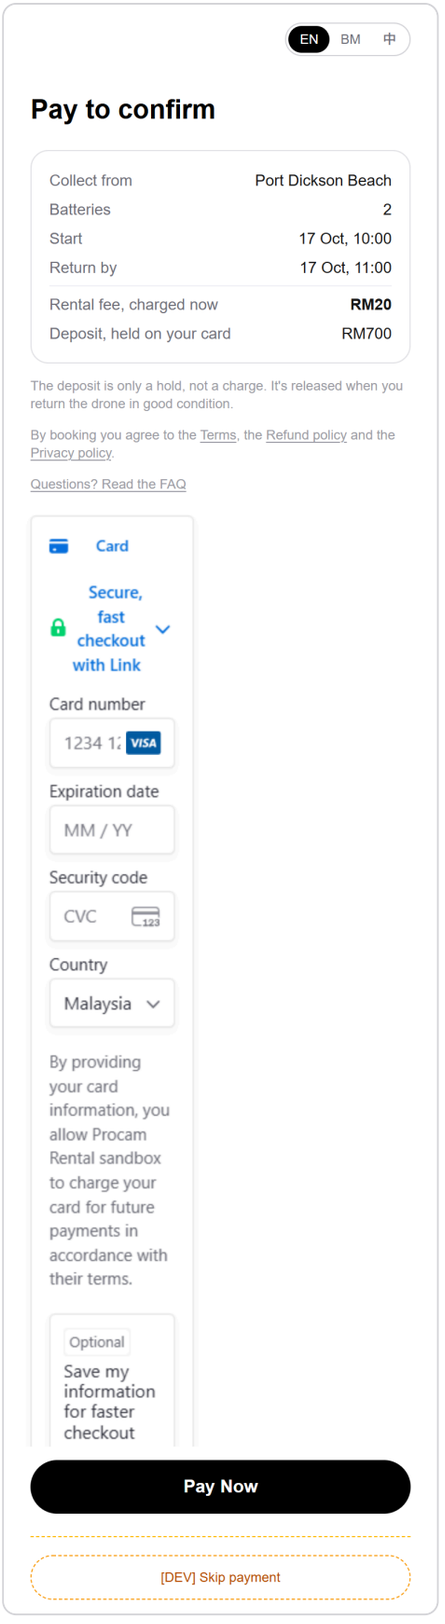

12

PART 2 · BOOK AND PAY

Your card

The card form is Stripe's own, so ProCam never sees your card number. The button holds the deposit on your card first. Only when that has worked is the rental fee charged. If the deposit can't be held, nothing is charged and nothing is booked, and you can try again or use another card.

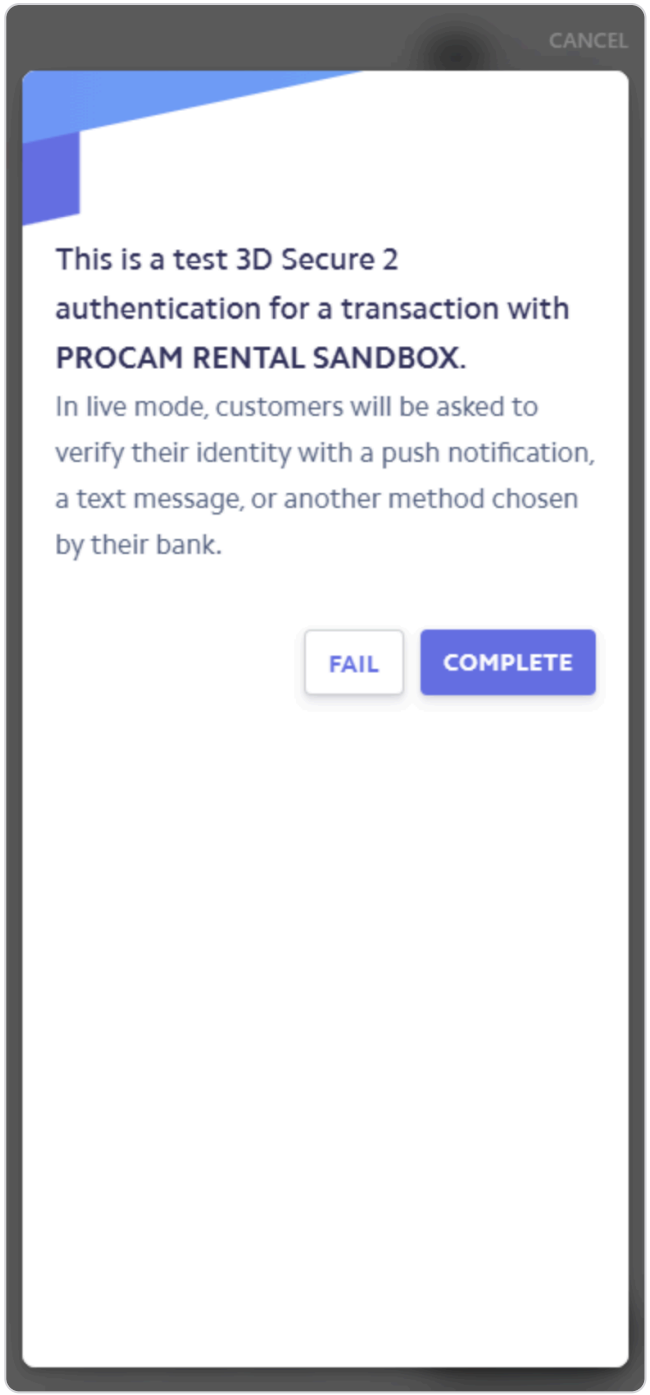

13

PART 2 · BOOK AND PAY

If your bank asks

Some banks ask you to approve the payment in their app or with a code. Follow the bank's steps and you come straight back to your booking.

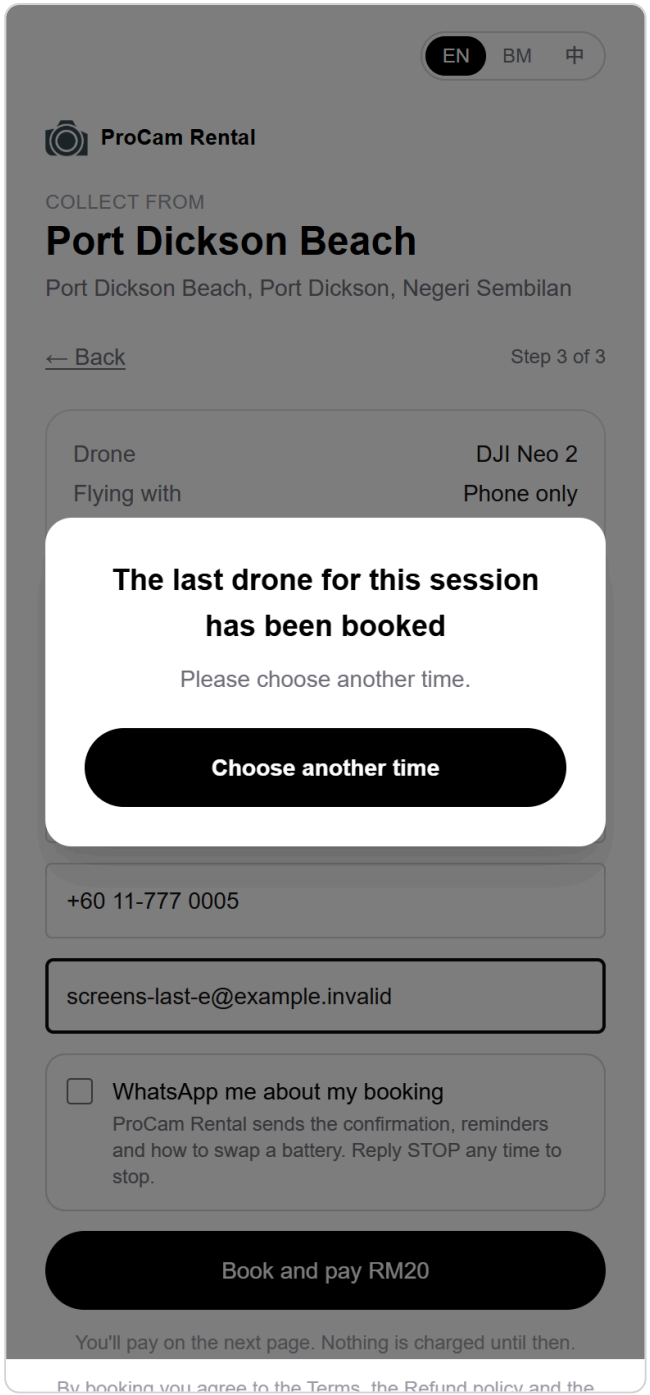

14

PART 2 · BOOK AND PAY

If someone else got the last drone

If another customer paid for the last drone first, you see this message and are not charged (a payment that went through at the same moment is refunded in full). Choose another time and everything you typed is still there.

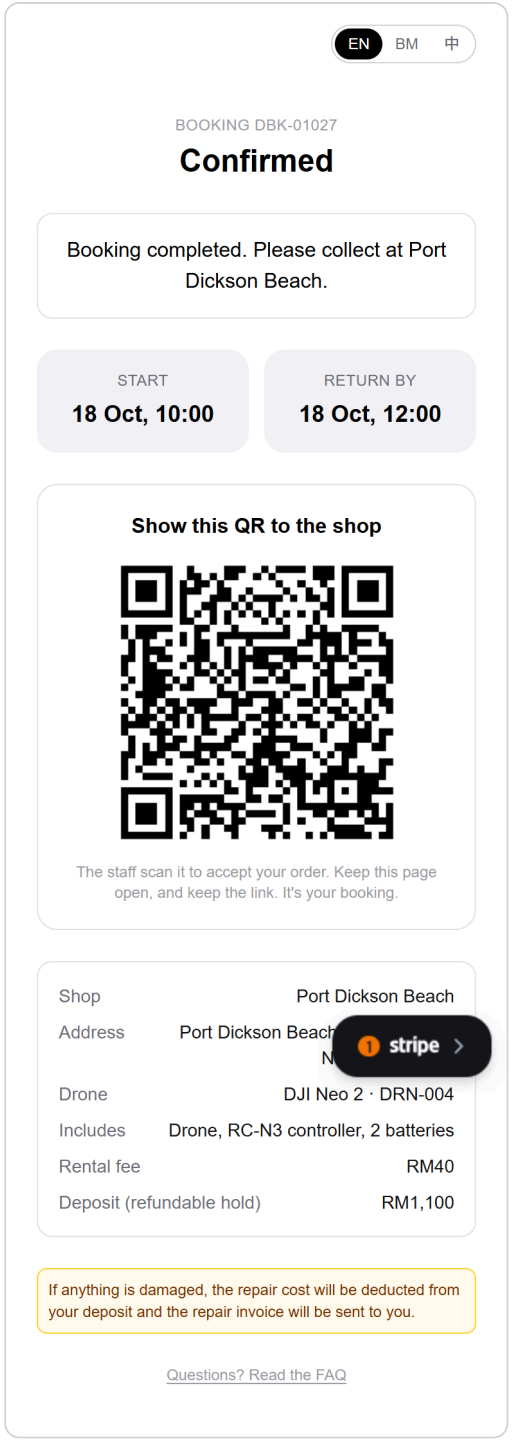

15

PART 2 · BOOK AND PAY

You are booked

Your booking page shows the start and return times and a QR code. Show this page to the staff at the shop. If you ticked the WhatsApp box you also get the confirmation there.

Part 3 · Collect it, fly it, swap a battery

Bring the same photo ID you used for the ID check. The staff check the drone, batteries and accessories with you and take photos; they do the same when you return it.

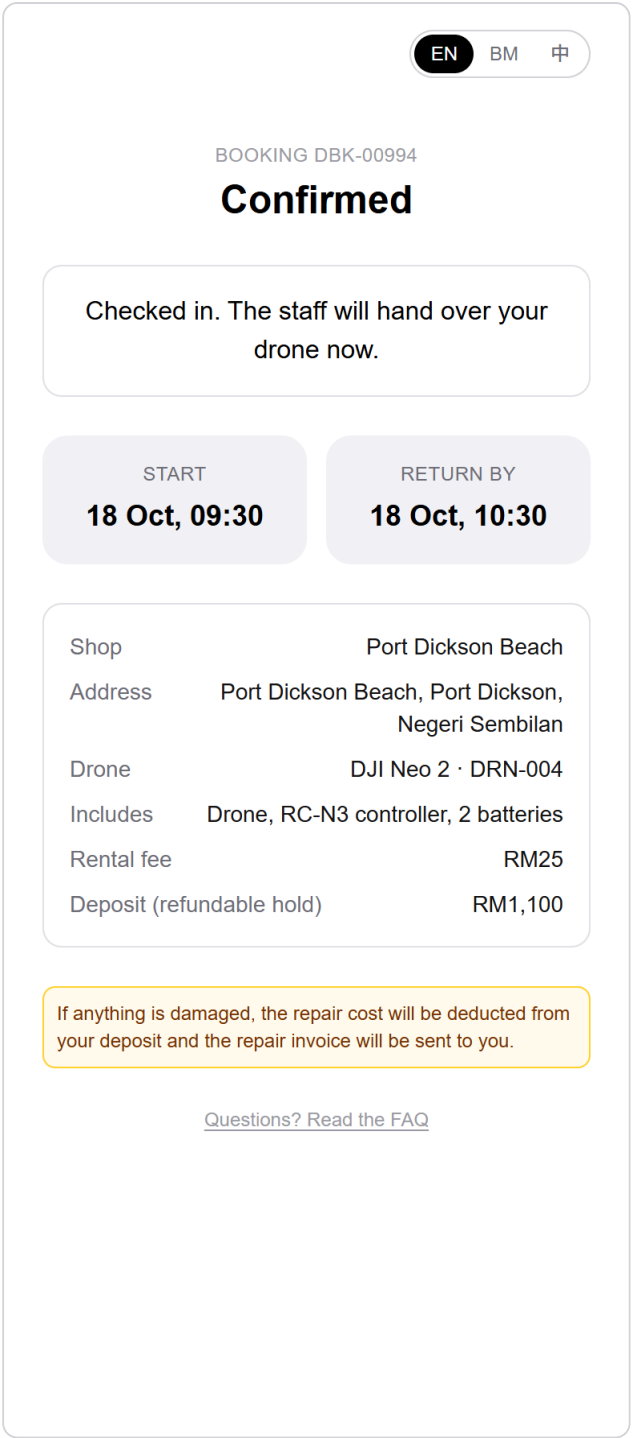

5 SCREENS

16

PART 3 · COLLECT IT, FLY IT, SWAP A BATTERY

After the staff accept

When the staff scan your QR, the QR disappears and your page says Checked in. They will hand over your drone now.

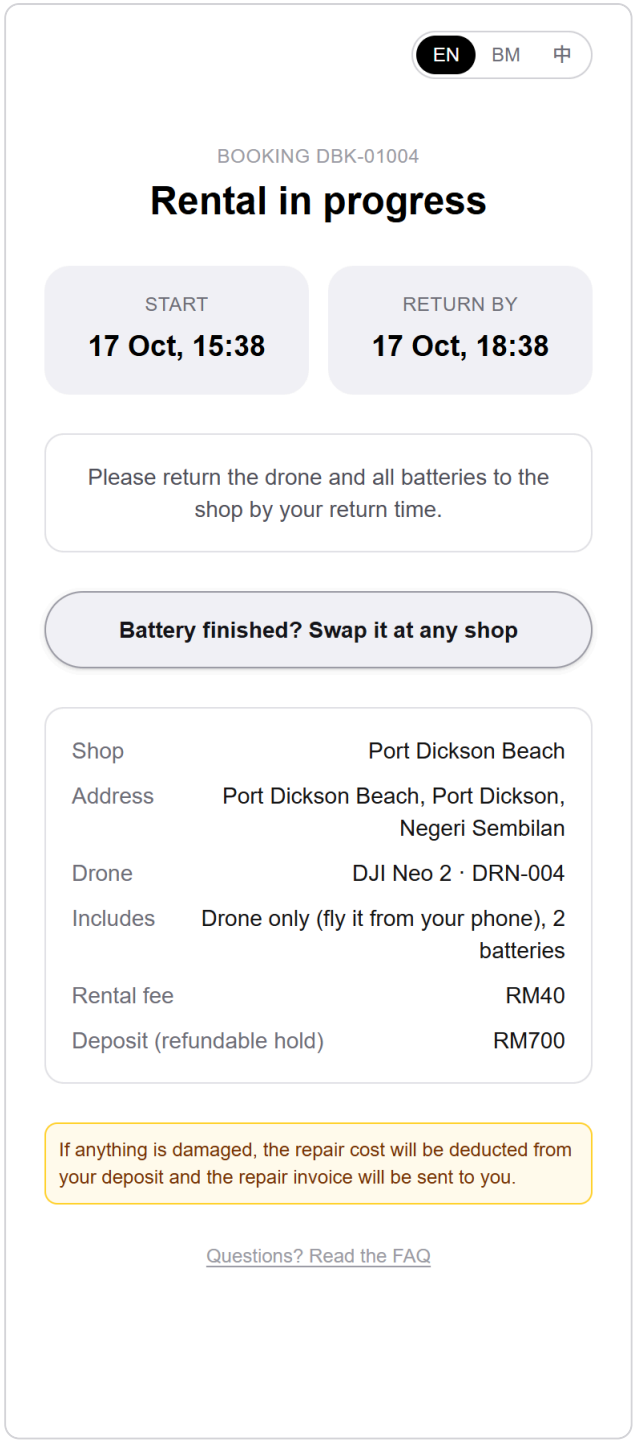

17

PART 3 · COLLECT IT, FLY IT, SWAP A BATTERY

While the drone is out

Your booking page shows when you have to return it. If a battery is finished, tap Battery finished? Swap it at any shop.

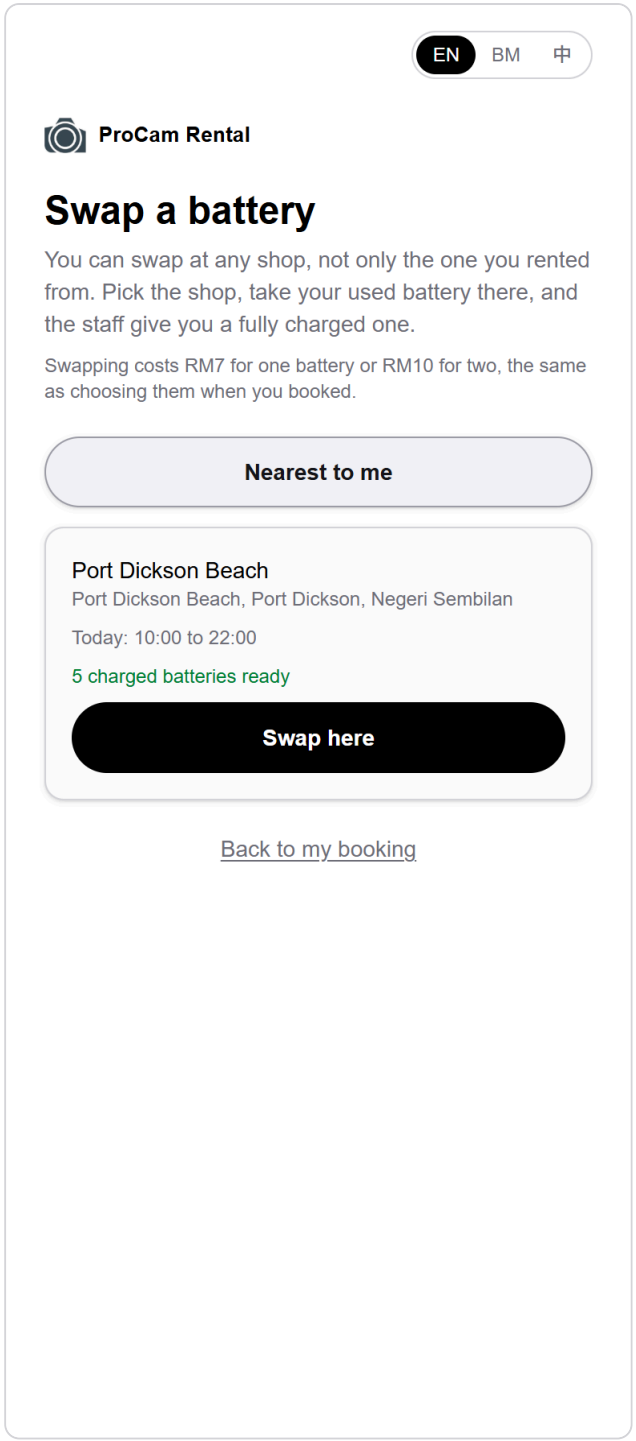

18

PART 3 · COLLECT IT, FLY IT, SWAP A BATTERY

Swap at any shop

You can swap at any of our shops. The list shows today's hours and how many charged batteries each shop has; a shop that is closed cannot be chosen. A swap costs the same as choosing batteries when you booked.

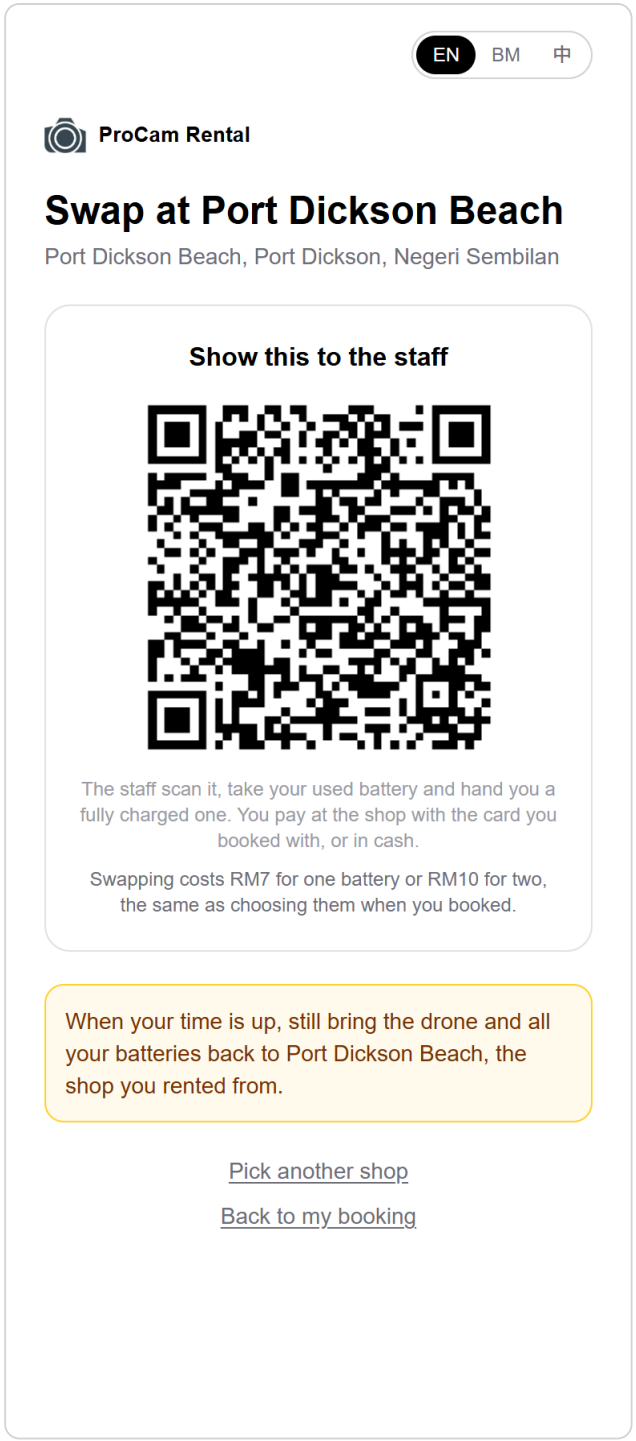

19

PART 3 · COLLECT IT, FLY IT, SWAP A BATTERY

Show this to the staff

Take the used battery to the shop you chose and show this QR code. They give you a fully charged one. You pay with the card you booked with, or in cash. When your time is up, you still bring the drone and all the batteries back to the shop you rented from.

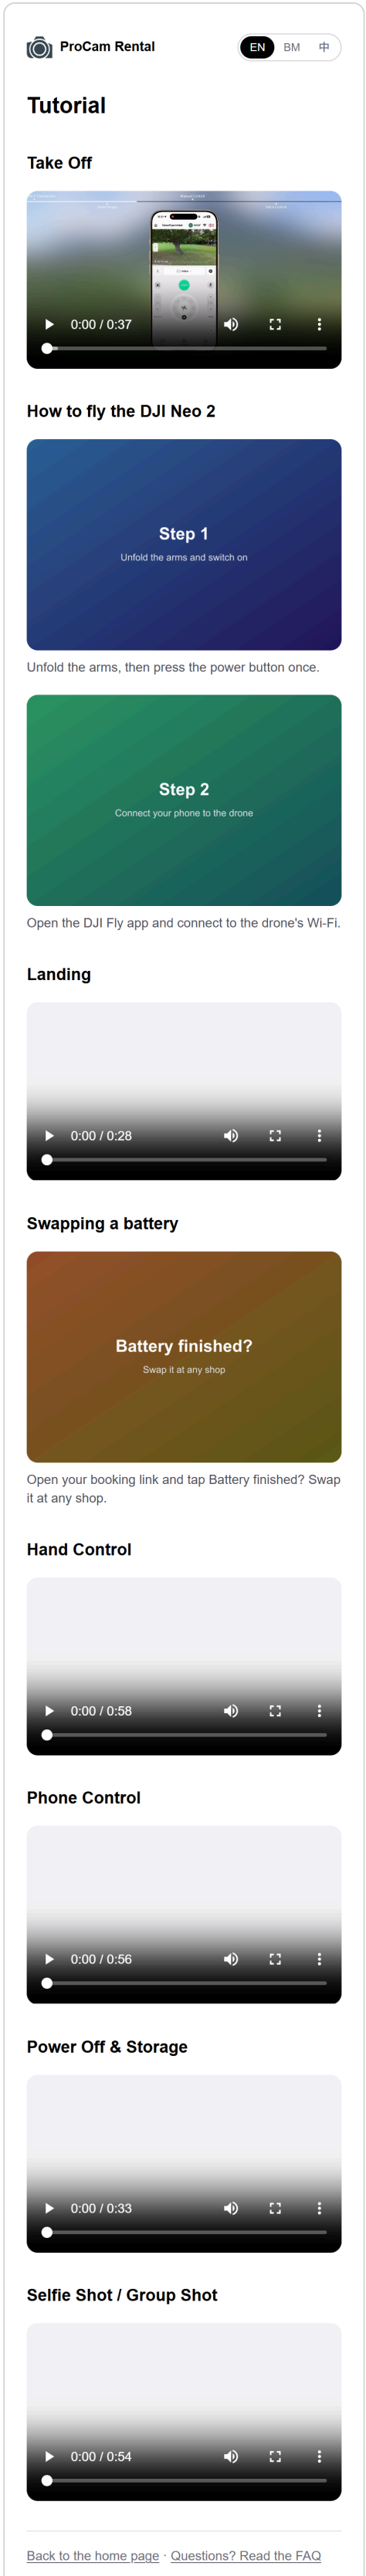

20

PART 3 · COLLECT IT, FLY IT, SWAP A BATTERY

Watch the tutorial

The tutorial page has short guides with photos and videos: how to fly, and what happens at the shop. The link is on the home page, and in your WhatsApp messages if you ticked the box.

Part 4 · No booking: walk in at a shop

At the shop you can scan the shop's walk-in QR instead of booking in advance, as long as a drone is free and the shop is open.

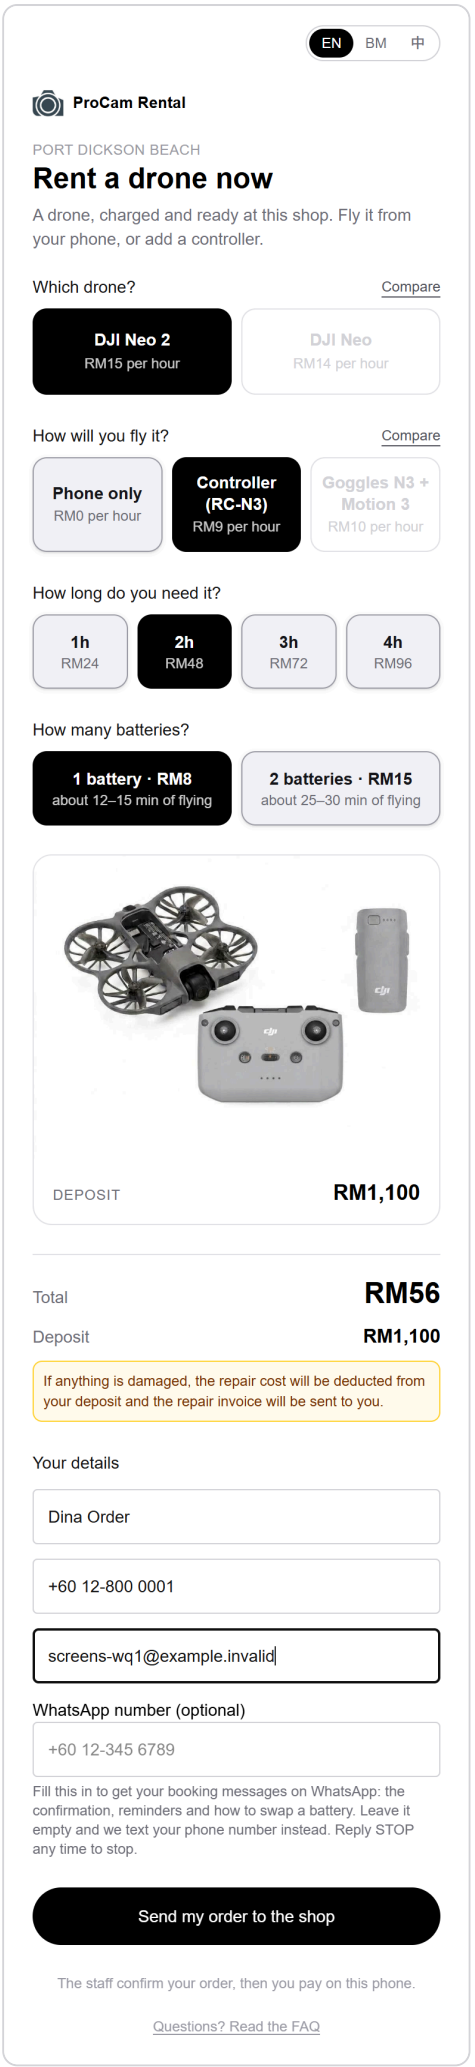

5 SCREENS

21

PART 4 · NO BOOKING: WALK IN AT A SHOP

Scan the shop's QR and fill in your order

Choose the drone, how to fly it, how long and the batteries, then add your details and verify your ID, as for an online booking.

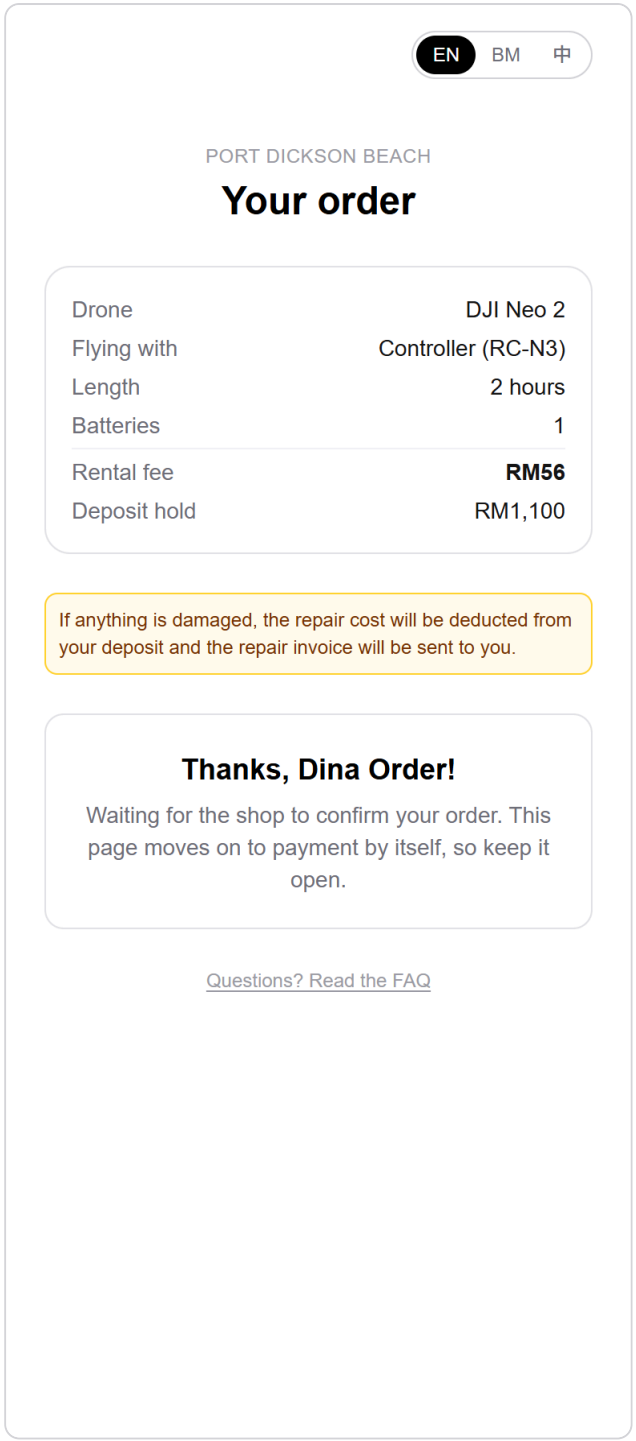

22

PART 4 · NO BOOKING: WALK IN AT A SHOP

Wait for the shop

Your phone waits while the staff check your name and confirm. It moves on to payment by itself.

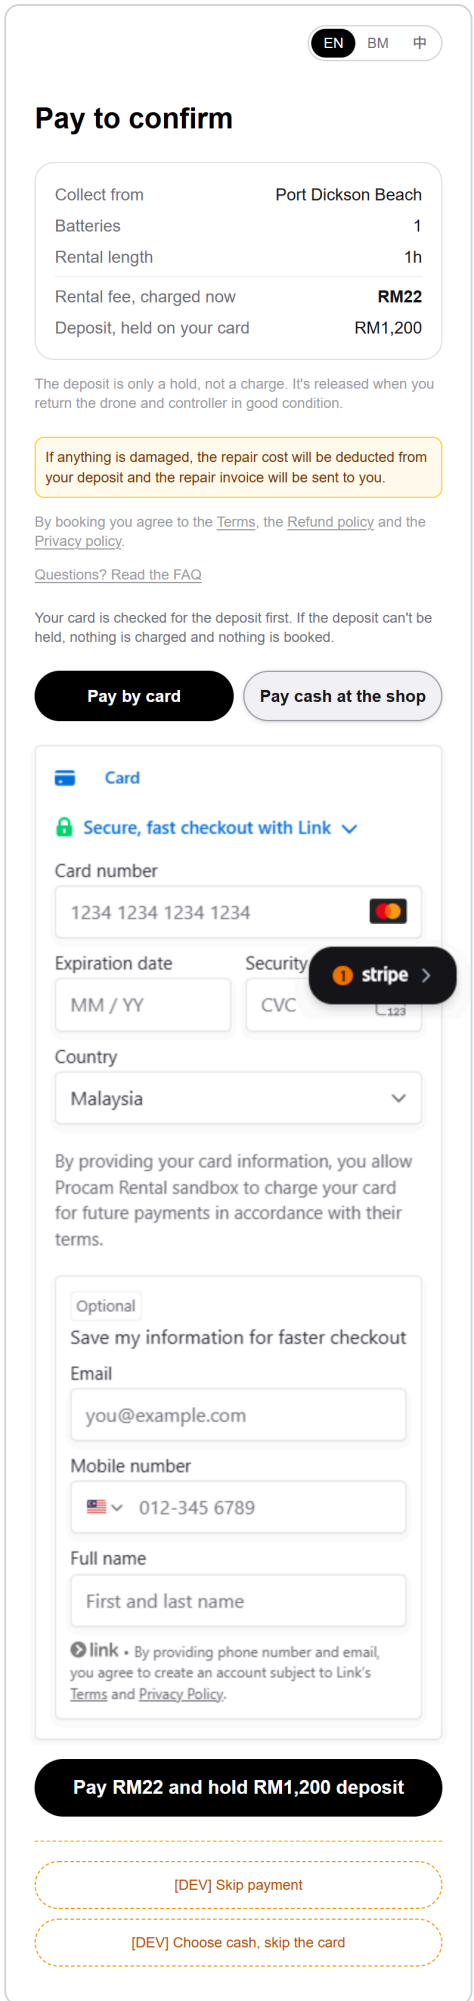

23

PART 4 · NO BOOKING: WALK IN AT A SHOP

Pay by card or cash

At a walk-in you can pay the rental fee by card, or in cash at the shop. A card is always needed for the deposit hold.

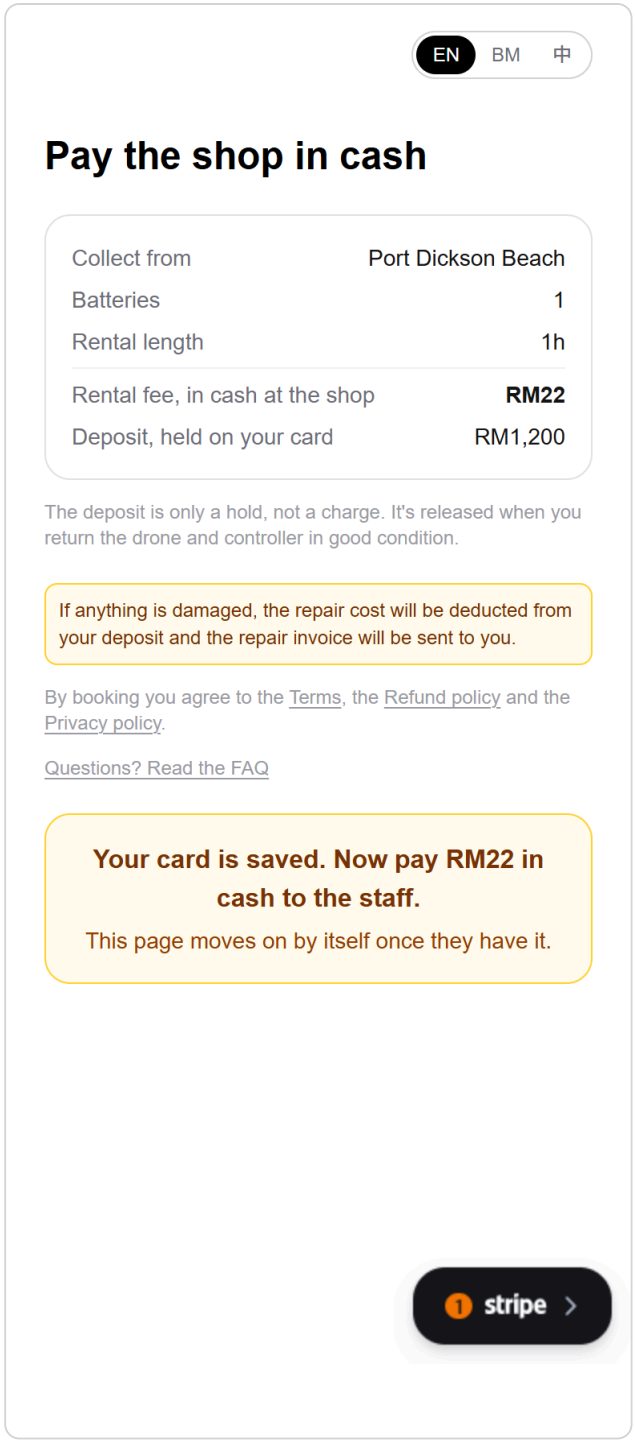

24

PART 4 · NO BOOKING: WALK IN AT A SHOP

Paying cash

You enter a card for the deposit hold, then pay the staff in cash. Your phone moves on by itself when they have the cash.

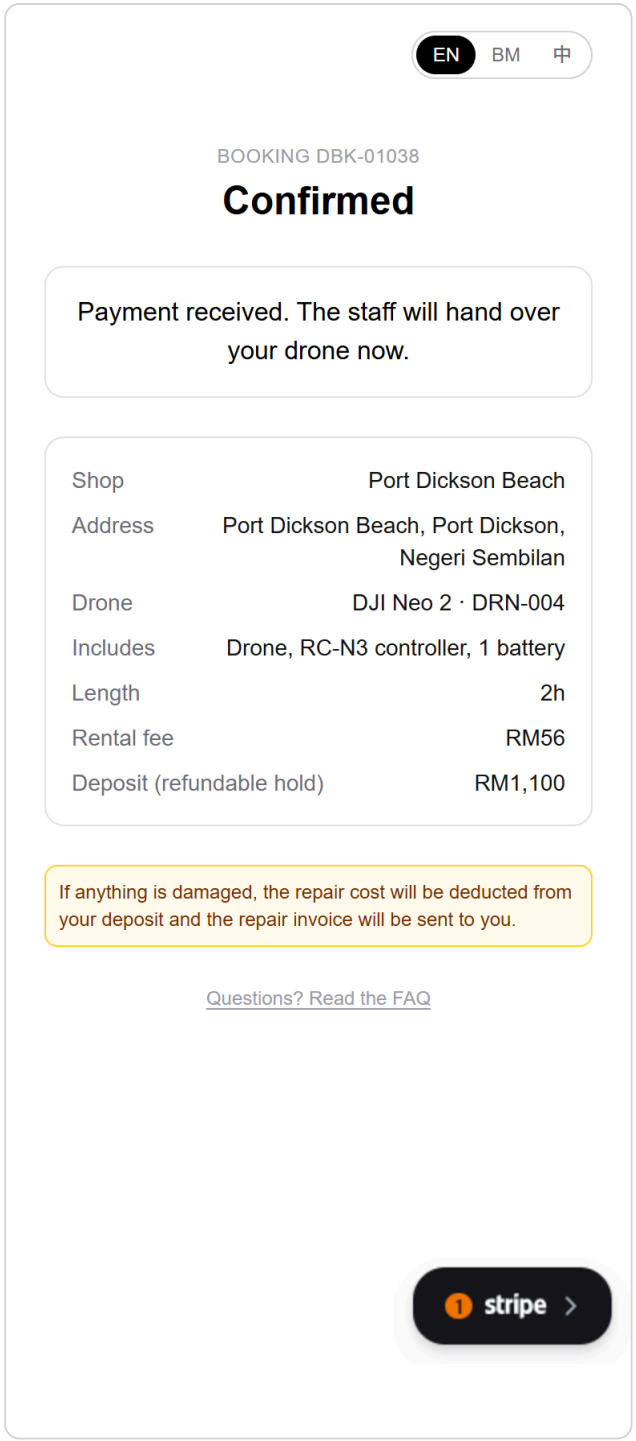

25

PART 4 · NO BOOKING: WALK IN AT A SHOP

Confirmed

Payment received. The staff will hand over your drone.

Part 5 · Other languages, and help

Every customer page is in English, Bahasa Melayu and Chinese. A link you open from a QR code or a message always starts in English; use the switch at the top to change it.

Terms & Conditions

Who can rent, prices and payment, the deposit, collecting and returning, damage and loss, flying safely, and our responsibility.

Terms & Conditions

Last updated 13 October 2026.

1. Who we are and what we rent

ProCam Rental (SSM 202603270563 (TR0351009-A)) rents small DJI camera drones in Malaysia: the DJI Neo 2 and the original DJI Neo, with an optional RC-N3 controller or Goggles N3 with Motion 3 controller. You collect and return the drone at any of our partner shops. The shop's name, address and map are on the booking page and in your booking confirmation.

By making a booking you agree to these terms, our Refund & Cancellation Policy and our Privacy Policy.

2. Who can rent

You must be at least 18 years old and able to make a binding agreement. Before we hold a drone for you, you complete an identity check: a photo of your MyKad or passport and a live selfie, done on your phone through our verification provider. Bring the same photo ID when you collect the drone: the shop staff check it against your booking and can refuse the rental if you cannot show it, if it does not match, or if they have good reason to doubt who you are. In that case the rental fee is refunded in full.

3. Booking, prices and payment

- All prices are in Malaysian Ringgit (MYR). The price you see on the booking page before you pay is the price you pay: the hourly rate for the drone you choose, plus the controller if you add one, plus the battery option.
- An online booking is only confirmed once your card payment has gone through. Until then no drone is held for you.
- If two people pay for the same last drone, the first payment wins. The other person is refunded in full automatically and is asked to choose another time.
- Walk-in rentals at a shop can be paid by card, or the rental fee can be paid in cash at the shop. A card is always needed for the deposit.
- Card payments are processed by Stripe. We never see or store your card number.

4. Security deposit

A refundable deposit is held on your card when your booking is paid: RM700 for the Neo 2 and RM600 for the Neo, plus RM400 if you add the RC-N3 controller or RM800 if you add the Goggles N3 and Motion 3 controller. The exact deposit is shown before you pay.

- The deposit is a hold on your card, not a charge. Nothing is taken from it unless something is damaged, lost or owed.
- The hold is released when the drone and controller come back in good condition. Your bank may take a few days to show it as released. A hold lasts at most about 7 days.
- The deposit is the most we take for damage to or loss of the equipment. If a repair or replacement costs more than the deposit, we cover the difference. The deposit does not cover late fees, extra batteries or anything else you owe, which are charged separately.

5. Collecting and returning the drone

- At pick-up the shop checks the drone, batteries and accessories with you and takes photos. At return they check again and take photos. These photos are our record of the condition.
- You are responsible for the drone, batteries, controller and everything in the kit from the moment you take it until the shop has accepted it back.
- Return everything by the end time you booked. After a 15-minute grace period, a late fee equal to one hour's rate (drone plus controller) is charged for each hour or part of an hour you are late. It is charged to the card you booked with, or paid in cash at the shop if you choose.
- You can swap used batteries for charged ones at any of our shops during your rental, not only the one you rented from. Each swap is charged at the battery price shown at the shop, to your saved card or in cash. You still return the drone and all your batteries to the shop you rented from.

6. Damage and loss

- If the drone or controller comes back damaged, the shop records what is damaged with photos. Your deposit stays on hold, and we review the damage that evening. We then charge only the cost of the repair, up to the amount held. In the event of damage, the repair cost is deducted from your deposit and the repair invoice is sent to you. The rest of the deposit is released.
- If a drone, controller or goggles set is lost (including flown out of reach, into the sea or a river, or not returned), we keep the deposit held for that item in full.
- Normal wear that comes from careful use is not damage.
- If you think a charge is wrong, contact us within 14 days of the return. We will look at the photos with you.

7. Flying safely and legally

You are the pilot and are responsible for how the drone is flown. You must:

- follow Malaysian law and the rules of the Civil Aviation Authority of Malaysia (CAAM), including keeping away from airports, airfields, military and other restricted areas;
- keep the drone within your sight, away from people, crowds, roads and other aircraft, and respect other people's privacy;
- not fly in rain or strong wind. Online booking is blocked when the forecast wind at the shop is stronger than the drone's limit (10.7 m/s for the Neo 2, 8 m/s for the Neo). Even below that limit, do not fly if conditions feel unsafe, especially over water or near a beach;
- not fly under the influence of alcohol or drugs, or use the drone to harm, harass or spy on anyone;
- not lend, sublet or resell the equipment, open it, repair it, or remove any labels.

Breaking these rules can cost you your deposit and may be reported to the authorities. We can refuse a rental, or end it, if we think the equipment or other people are at risk.

8. Cancellations and refunds

If you cancel at least 24 hours before your start time, you get the rental fee back in full. The full details are in our Refund & Cancellation Policy.

9. Our responsibility

We provide the equipment as it is and look after it carefully, but we are not liable for indirect or consequential loss, such as lost footage, missed moments or claims by other people, beyond the rental fee and deposit you paid for that booking. You are responsible for any injury, damage to property or claim caused by your flying. Nothing in these terms limits any right or liability that cannot be limited under Malaysian law.

10. Changes to these terms

We may update these terms. The terms in force when you make a booking apply to that booking.

11. Governing law and contact

These terms are governed by the laws of Malaysia, and disputes are subject to the courts of Malaysia. Questions? See our Contact page.

30

PART 5 · OTHER LANGUAGES, AND HELP

Refunds and cancellations

Cancel at least 24 hours before the start for a full refund of the rental fee; the deposit is only a hold and is released when everything comes back in good condition.

Refund & Cancellation Policy

Last updated 13 October 2026.

1. You cancel

- Cancel at least 24 hours before your start time: you get the whole rental fee back.
- Cancel less than 24 hours before the start, or do not turn up: the rental fee is not refunded. If we can rent the drone to someone else for that time, we will refund you.
- To cancel, contact us (see the Contact page) with your booking number, the name and the phone number you booked with.

2. We cancel, or something goes wrong: full refund

You get the full rental fee back, and your deposit hold is released, when:

- the last drone for your time was taken by someone who paid just before you. This is refunded automatically and you are asked to choose another time;
- the wind forecast is above the drone's limit, or the shop judges the weather or the place unsafe to fly, and you are not able to rebook;
- the shop cannot give you the drone you booked, or the drone, battery or controller is faulty at hand-over;
- the shop cannot confirm who you are, or your ID does not match your booking;
- we cancel for any other reason.

If we can offer you another time or drone instead, you can accept that, or take the refund.

3. Once the drone is out

- The rental fee is not refunded for a rental you cut short or for time you did not use, unless the drone stops working through no fault of yours. In that case we refund the unused hours, or give you a replacement drone.
- Late fees and battery swaps are not refunded unless we charged them by mistake.

4. Your deposit

- The deposit is only ever a hold on your card. If everything comes back in good condition, the whole hold is released. No money was taken, so there is nothing to refund.
- If something is damaged, the repair cost is deducted from your deposit (up to the amount held) and the repair invoice is sent to you; we release the rest. If something is lost we keep the deposit held for that item. See the Terms for how this works.
- Your bank decides how fast a released hold disappears from your statement. This usually takes a few working days. A hold that is not captured is released automatically after about 7 days.

5. How refunds are paid

Refunds go back to the card you paid with, in Malaysian Ringgit. We start the refund straight away. Your bank may take 5 to 10 working days to show it. Fees charged by the payment processor are not returned to us, but we never take them out of your refund. If you paid in cash at the shop, the shop returns the cash.

6. A charge you disagree with

If you think a damage charge, late fee or any other charge is wrong, contact us within 14 days. We will go through the hand-over and return photos with you and correct it if we got it wrong. Please contact us first, before asking your bank to reverse the payment, so we can fix it quickly.

7. Contact

Send us your booking number on the Contact page. See also the Terms & Conditions.
