63 screens captured on a phone-sized display from the latest code, using test data that has since been deleted. One whole webpage per page, never split. Pages are A4 landscape; a webpage too tall for that gets a taller sheet of the same width so it stays in one piece.

Landing page

Headline and a Book a drone button, then two tables: the DJI Neo next to the Neo 2 (prices, deposits and DJI's official specs), and phone only, RC-N3 or Goggles N3 + Motion 3 (extra per hour, extra deposit, whether you need your phone, control range). Then three steps and the three kit rules, with the key words in bold and underline.

Rent a drone. Fly today.

A DJI Neo or Neo 2 with batteries, ready at your nearest shop. Fly it from your phone, or add a controller or goggles. Pick a time, collect it, fly, and bring it back.

YOUR EARNINGS IN OCT 2026

RM218.32

Your 50% of what's left after costs, from 17 paid bookings.

Last month: RM148.52 ▲ 47%

How your earnings are worked out

Costs come off what customers paid, and what is left is split 50/50. Tap an i to see what a cost is.

Customers paid	RM646.00
Platform fee 18% ⓘ	– RM116.28
Payment processing ⓘ	– RM24.39
The card fee Stripe charges on each card payment: 3.1% plus RM1.00 per payment. (It is 3% + RM1 on a Malaysian card and 4% + RM1 on a foreign one; 3.1% allows for the odd foreign card.) The rental, a battery swap and a late fee are each a separate payment. Cash has no card fee, so a payment in cash costs nothing here.	
KYC / verification ⓘ	– RM17.00
RM1.00 for every drone booking, for checking the customer's ID and face before they get a drone.	
Insurance / protection 8% ⓘ	– RM51.68
Left after costs	RM436.65
ProCam 50%	RM218.32
You 50%	RM218.32

RM214.00 of that was paid in cash. Cash has no card fee, so it leaves you more.

Counted on the rental, battery swaps and late fees. A deposit kept for damage or loss pays for the repair, so it isn't shared.
