

ProCam merchant guide: what you do, in order

Only the things the merchant does, in the order they do them: start the day, hand over a drone (online booking or walk-in), swap batteries, take it back, and check earnings. Screens are from the app on a phone.

Part 1 · Start of the day	2 screens
Part 2 · A customer who booked online	5 screens
Part 3 · A walk-in customer	6 screens
Part 4 · While the drone is out	3 screens
Part 5 · When the drone comes back	3 screens
Part 6 · Your earnings	1 screen

Step 2 · Check who is coming

Step 4 · Check what goes out, take the first photo

The handover page says who it's for and what goes out: the drone, the controller if they rented one (an RC-N3 such as CTR-001, or the goggles set GOG-001) and the batteries to give, by name (B1, B2). Tap which charged batteries you are handing over. Every rental needs 2 photos, one per page. The first is on this page: the drone from above with its controller, both switched on (or the drone alone for a phone-only rental).

How your earnings are worked out

Costs come off what customers paid, and what is left is split 50/50. Tap an i to see what a cost is.

Customers paid	RM646.00
Platform fee 18% ⓘ	– RM116.28
Payment processing ⓘ	– RM24.39
The card fee Stripe charges on each card payment: 3.1% plus RM1.00 per payment. (It is 3% + RM1 on a Malaysian card and 4% + RM1 on a foreign one; 3.1% allows for the odd foreign card.) The rental, a battery swap and a late fee are each a separate payment. Cash has no card fee, so a payment in cash costs nothing here.	
KYC / verification ⓘ	– RM17.00
RM1.00 for every drone booking, for checking the customer's ID and face before they get a drone.	
Insurance / protection 8% ⓘ	– RM51.68

RM214.00 of that was paid in cash. Cash has no card fee, so it leaves you more.
