53 screens captured on a phone-sized display from the latest code, using test data that has since been deleted. One whole webpage per page, never split. Pages are A4 landscape; a webpage too tall for that gets a taller sheet of the same width so it stays in one piece.

Landing page

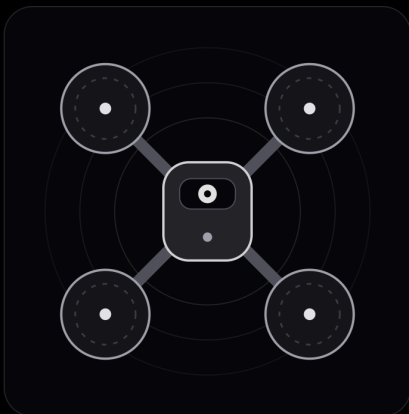

Hero with a Choose your drone button, then a prices table and a specs table (ticks and crosses) comparing the DJI Neo 2 and the GT50, three steps, and the kit.

Rent a drone. Fly today.

A DJI Neo 2 or a GT50, with controller and batteries, ready at your nearest shop. Pick a time, collect it, fly, and bring it back.

What is in the kit

- A DJI Neo 2 or a GT50 drone
- Its controller
- 1 or 2 batteries, charged at the shop

Swapping used batteries for fully charged ones at the shop costs the same as choosing 1 or 2 batteries. Returning late costs the hourly rate for each hour. The deposit is released when everything comes back in good condition.

Payment processing *i*

– RM16.06

The card fee Stripe charges on each card payment: 3.1% plus RM1.00 per payment. (It is 3% + RM1 on a Malaysian card and 4% + RM1 on a foreign one; 3.1% allows for the odd foreign card.) The rental, a battery swap and a late fee are each a separate payment. Cash has no card fee, so a payment in cash costs nothing here.

KYC / verification *i*
